

2018

HOUZZ & HOME INTERNATIONAL COMPARISON July 2018

Home Renovation Activity in 2017

Big Ideas

SIGNIFICANT SPEND ON HOME RENOVATIONS

Renovating homeowners on Houzz are making significant investments, with median spend starting from \$12,000 in most countries* (\$12,000-\$28,000). India and Russia are the only countries where median spend is significantly lower, \$4,000 and \$6,000, respectively. Median spend increased or stayed in same in most countries year over year, with the exception of Denmark, France and UK.

MORE DELIBERATE PLANNING AND BUDGETING

Homeowners on Houzz are keen on setting an initial budget for home renovations across countries (58%-90%). Yet, across nearly every country, roughly half of those with an initial budget go over budget (42%-58%). Russia and India outpace other countries in their propensity to go over budget (71%-74%), and Sweden is least likely to go over budget with 39%.

HIRING PROFESSIONAL HELP IS IMPORTANT FOR MOST

Across the globe, hiring a professional, such as a home construction or design specialist, is critical to most renovating homeowners (75%-98%). Since kitchens and bathrooms are among top projects across all countries, the need for professional expertise in these technical spaces is not a surprising.

AWARDS GO TO....

CA, UK & US – for the highest propensity to renovate among Houzz users (56%-58% vs. 14%-52% for all other countries)

CA, France & US – for the most frequent usage of credit cards to pay for renovations (26%- 28% vs. 1%-20%)

France – for the most frequent motivation to renovate due to a recent home purchase (43% vs. 13%-39%).

Russia – for the most frequent renovation of kitchens among interior space upgrades (38% vs. 20%-33%).

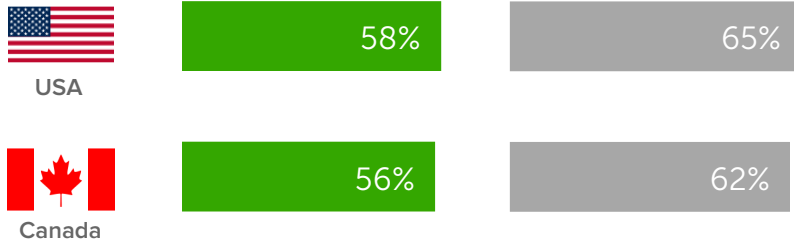

*Houzz Research studies trends in the U.S.A., Canada, Australia, India, New Zealand, Japan, Denmark, France, Germany, Ireland, Italy, Russia, Spain, Sweden, and the United Kingdom.

What We Are Planning For 2018

Charts below show the frequency of planned renovation or decoration activities in 2018 related to the primary home, as reported by homeowners on Houzz.

Methodology

APPROACH

Houzz is an all-in-one resource for homeowners working on a home renovation or decorating project. Our large and engaged user community is able to provide unprecedented insights on the latest market trends based on users' home improvement activity. We aggregate and share these insights with the community to give people greater confidence in the choices they make for their homes, and to give home professionals greater insights into their clients' wants and needs. With these goals in mind, Houzz conducted an online quantitative survey of registered Houzz users regarding trends in home improvement and design, fielded between March 5 and April 24, 2018. The annual Houzz & Home study is the largest survey of residential remodeling, building and decorating activity conducted. This survey covers every aspect of home renovation in 2017, from interior remodels and additions to home systems, exterior upgrades and outdoor projects. This includes the historical and planned spends, professional involvement and motivations behind these projects, as well as activities planned for 2018.

COMPLETES AND QUALIFICATIONS

The 160-question survey gathered information from Houzz users who identified themselves as 18 years old or older and homeowners. The final sample consists of 219,599 respondents in worldwide. The current report relies on a subset of responses, i.e., homeowners on Houzz (n=192,787) and homeowners on Houzz who renovated their primary residence in 2017 (n=99,248).

SAMPLING AND WEIGHTING

Data were gathered via an email sent to registered Houzz users. The link invited homeowners to tell us about their homes. Respondents were notified that aggregate findings would be shared with the larger Houzz community to help others in completing their own renovations. The final data were reviewed to ensure representation of the Houzz user populations.
