

THE BATTERY

12V 100Ah

The battery is a sealed lead acid battery with a capacity of 100Ah at 20°C. It is designed for use in a wide range of applications, including marine, industrial, and automotive. The battery is maintenance-free and has a long life expectancy.

The battery is constructed from high-quality materials and is designed to withstand harsh environments. It has a robust construction and is resistant to vibration and shock. The battery is also resistant to corrosion and has a long life expectancy. The battery is designed to be used in a wide range of applications, including marine, industrial, and automotive.

Technical specifications

Parameter	Value	Unit
Nominal voltage	12	V
Capacity	100	Ah
Discharge current	100	A
Charging current	10	A
Operating temperature	-20 to 50	°C
Storage temperature	-20 to 50	°C
Weight	18	kg
Dimensions	330 x 175 x 190	mm

DISASSEMBLY

The diagram shows the disassembly of the battery terminal. The terminal cap is shown being lifted off the terminal, and the terminal is shown being removed from the battery body.
