

ASSEMBLY INSTRUCTION

(for connecting the wire of the light on this curio)

Item#: 5070-50001 Bunching Curio

***** Caution: Please read all instructions carefully before starting the assembly process.**

Please note the curio can be used alone with can light on by a touch dimmer. Also, when 2 or more are bunched together, you can control all can lights by touching one dimmer.

- A — male connector (of the power switch)
- B — female connector (of the power switch)
- C — male connector (of the bulb)
- D — female connector (of the bulb)
- E — male connector (of the power wire)
- F — female connector (of the power wire)

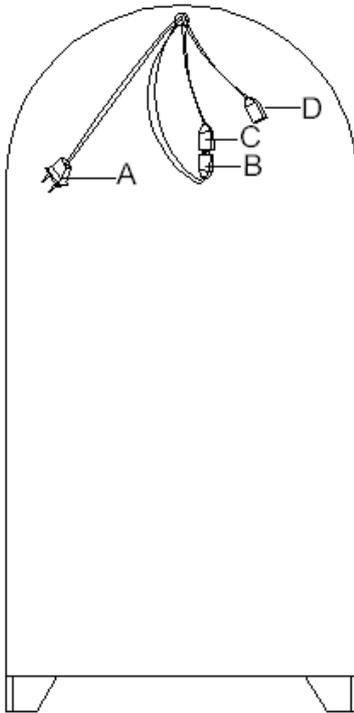

DIAGRAM 1

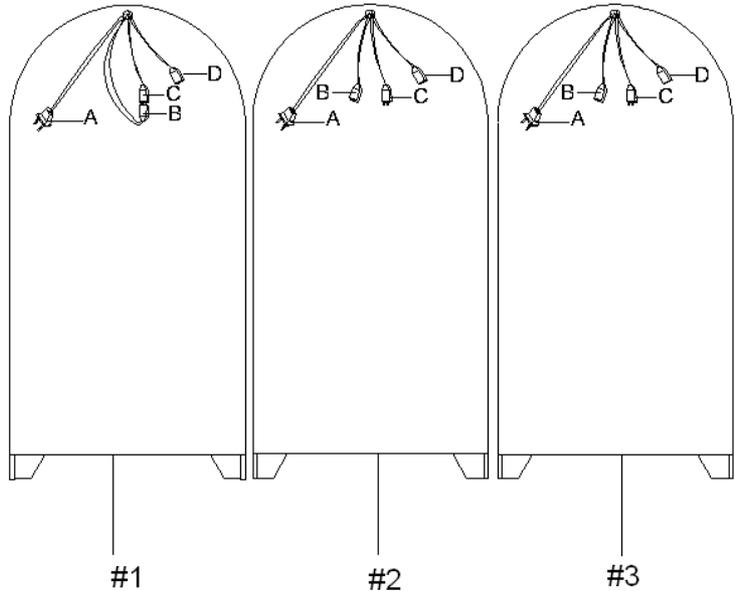

DIAGRAM 2

Assembly steps:

1. When each piece of curio is used alone, attach male connector of the power switch (A) to a wall plug. (see diagram 1)
2. Touch the dimmer at the right top of door hinge, the can light of it will be on.
3. If you want to bunch 2 or more curios together, place them all side by side in a desired location.
4. Leave male connector of the bulb (C) and female connector of power Switch (B) for the first curio (#1) as it is. Keep male connector of the bulb (C) and female connector of power switch (B) off for the rest curios(#2, #3, and so on). See diagram 2.
5. Connect female connector of the bulb(D) (the #1 curio) with male connector of power wire (E), then have female connector of power wire(F) connected to male connector of the bulb(C) (the #2 curio). See diagram 3.

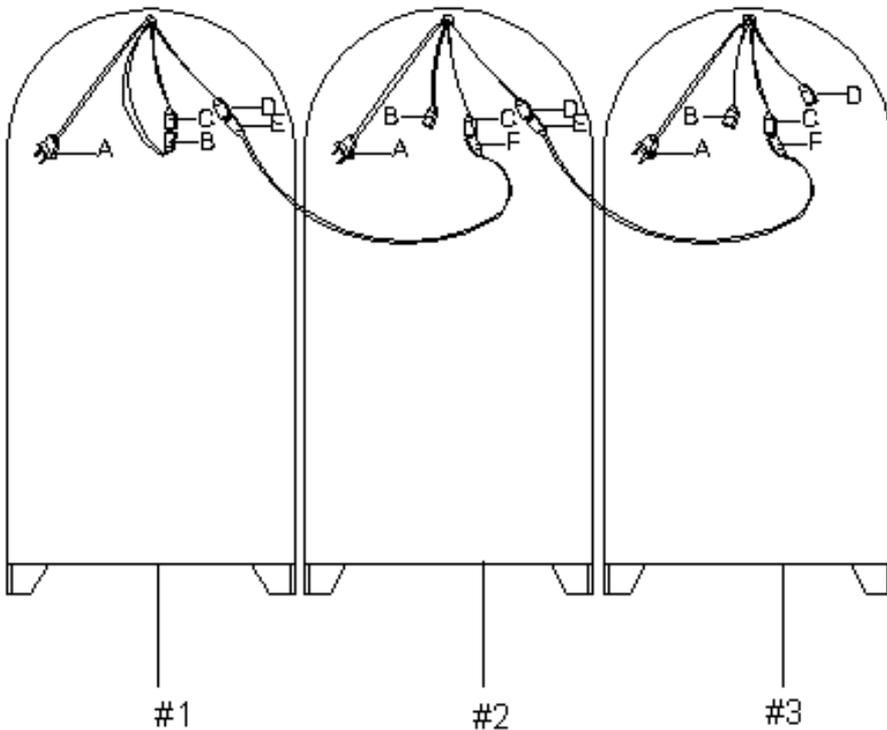

DIAGRAM 3

6. Repeat step 5 for the 3rd curio and the rest ones when more than 2 are bunched together till each one is connected.
7. Attach male connector of power switch (A)(the #1 curio) to a wall plug.
8. Touch the dimmer of the #1 curio, all can lights connecting together will be on at the same time.

Cleaning Instruction: Clean finished parts with a mild dishwashing liquid and water solution on a damp cloth. Polish the finish with soft cloth and an industry recognized furniture polish.
