What Are These Symbols?

UL (Underwriters Laboratories) is a safety consulting and certification company. UL provides safety-related certification, validation, testing, inspection, auditing, advising and training services to a wide range of clients, including manufacturers, retailers, policymakers, regulators, service companies, and consumers.

Canadian Standards Association (CSA) is a safety consulting and certification company for the USA and Canada. CSA provides safety-related certification, validation, testing, inspection, auditing, advising and training services to a wide range of clients, including manufacturers, retailers, policymakers, regulators, service companies, and consumers.

NSF International is a global independent public health organization that provides standards development, product certification, testing, auditing, education and risk management services for public health and the environment.

ETL is a multinational inspection, product testing and certification company specializing in product safety testing.

The CE mark is a mandatory conformity marking for certain products sold within the European Economic Area (EEA). The CE marking is the manufacturer's declaration that the product ensures that the marked goods conform to standards.
