Description With features like a hand held shower, adjustable body massage sprays, large "rain" shower head and multifunction water controls, a DreamLine™ shower panel turns your ordinary shower into a home spa. A built-in thermostatic valve maintains constant bathing temperature. Add other elements of design on select DreamLine™ shower columns - like shelves, accessory compartments, individual water controls – and your shower not only gets a beauty makeover but also becomes more functional. Installation is easy with only a hot and cold water connection required and a fast mounting on enclosed wall brackets.
