Part List-Coat Hook With Shelf

Identifying the hardware-Identify the hardware using the illustrations below.

www.boltonfurniture.com

Step 1

Measure the distance between the two holes of the key hole center.

Mark the desired location on the wall there you want to hang the Coat Hook With Shelf.

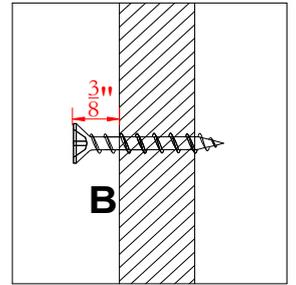

Step 2

Drill 1/8" pilot hole 2" deep. This marks location for screws to hang the Coat Hook With Shelf.

Step 3

If hole location is aligned with stud in the wall, secure the screws(B) directly into the stud.

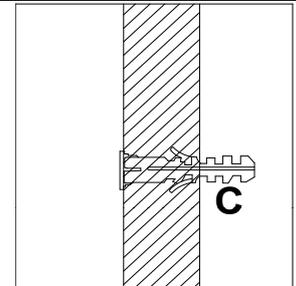

Note: Do not drive screws all the way in, have head of screws out about 3/8".

Step 4

If hole locations do not align with the stud, install the plastic anchors(C).

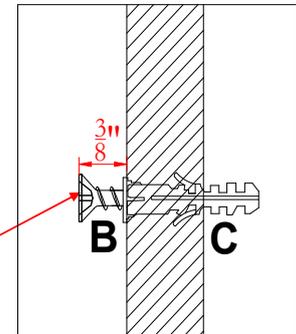

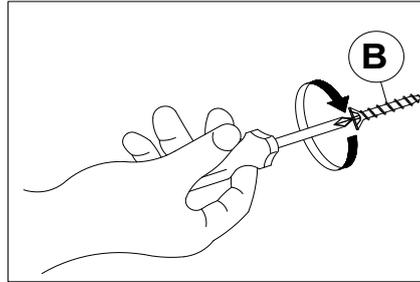

Tap the plastic anchors(C) into the drywall completely.

Step 5

Secure screws(B) into plastic anchors.

Note: Do not drive screws all the way in, have head of screws out about 3/8".

Step 6

Hang the Coat Hook.
