

THE BATTERY

1. The battery is the source of electrical energy for the vehicle.

2. The battery is located in the engine compartment.

3. The battery is connected to the vehicle's electrical system.

4. The battery is used to start the engine.

5. The battery is used to power the vehicle's electrical system.

6. The battery is used to power the vehicle's lighting system.

7. The battery is used to power the vehicle's horn.

8. The battery is used to power the vehicle's radio.

9. The battery is used to power the vehicle's power windows.

10. The battery is used to power the vehicle's power locks.

11. The battery is used to power the vehicle's power mirrors.

12. The battery is used to power the vehicle's power seats.

13. The battery is used to power the vehicle's power steering.

14. The battery is used to power the vehicle's power brakes.

15. The battery is used to power the vehicle's power windows.

16. The battery is used to power the vehicle's power locks.

17. The battery is used to power the vehicle's power mirrors.

18. The battery is used to power the vehicle's power seats.

19. The battery is used to power the vehicle's power steering.

20. The battery is used to power the vehicle's power brakes.

21. The battery is used to power the vehicle's power windows.

22. The battery is used to power the vehicle's power locks.

23. The battery is used to power the vehicle's power mirrors.

24. The battery is used to power the vehicle's power seats.

25. The battery is used to power the vehicle's power steering.

26. The battery is used to power the vehicle's power brakes.

27. The battery is used to power the vehicle's power windows.

28. The battery is used to power the vehicle's power locks.

29. The battery is used to power the vehicle's power mirrors.

30. The battery is used to power the vehicle's power seats.

IGNITION

1. The ignition system is responsible for starting the engine.

2. The ignition system is located in the engine compartment.

3. The ignition system is connected to the vehicle's electrical system.

4. The ignition system is used to start the engine.

5. The ignition system is used to power the vehicle's electrical system.

6. The ignition system is used to power the vehicle's lighting system.

7. The ignition system is used to power the vehicle's horn.

8. The ignition system is used to power the vehicle's radio.

9. The ignition system is used to power the vehicle's power windows.

10. The ignition system is used to power the vehicle's power locks.

11. The ignition system is used to power the vehicle's power mirrors.

12. The ignition system is used to power the vehicle's power seats.

13. The ignition system is used to power the vehicle's power steering.

14. The ignition system is used to power the vehicle's power brakes.

15. The ignition system is used to power the vehicle's power windows.

16. The ignition system is used to power the vehicle's power locks.

17. The ignition system is used to power the vehicle's power mirrors.

18. The ignition system is used to power the vehicle's power seats.

19. The ignition system is used to power the vehicle's power steering.

20. The ignition system is used to power the vehicle's power brakes.

21. The ignition system is used to power the vehicle's power windows.

22. The ignition system is used to power the vehicle's power locks.

23. The ignition system is used to power the vehicle's power mirrors.

24. The ignition system is used to power the vehicle's power seats.

25. The ignition system is used to power the vehicle's power steering.

26. The ignition system is used to power the vehicle's power brakes.

27. The ignition system is used to power the vehicle's power windows.

28. The ignition system is used to power the vehicle's power locks.

29. The ignition system is used to power the vehicle's power mirrors.

30. The ignition system is used to power the vehicle's power seats.
