

CFL Mezzo aquarium and stand set up

### Thank you for choosing Clear-for-Life™ Acrylic Aquarium

Advance Aqua Tanks is committed to manufacturing the world's finest acrylic aquariums, the Clear-for-Life™ acrylic aquarium. We feel so strongly about the quality of our workmanship that we guarantee every aquarium we build with a limited Lifetime Warranty. (see Warranty card for details)

CFL Bowfront UniQuarium

### How do we do that?

We begin with the best materials, the finest craftsmanship and the latest manufacturing technologies. Each Clear-for-Life™ acrylic aquarium is hand crafted using high-grade cast acrylic. The seams are chemically "welded"- resulting in the strongest joints possible. Finally, all edges are polished for a flawless finish.

CFL Hexagon aquarium & acrylic stand

### Clear-for Life Aquariums

Clear-for-Life™ acrylic aquariums are designed for easy maintenance and long-lasting beauty. Clear-for-Life™ acrylic aquariums can be easily modified for use with any filtration system.

A variety of exciting colors, shapes and sizes are available:

- Desktop series (4.5 to 12 gallons)
- Standard aquariums (10 to 500 gallons): rectangle, hexagon, octagon, flat-back hexagon, pentagon, tube, cube, bowfront, mezzo and quadra.
- UniQuarium™ series with built-in 3-in-1 filtration systems (12 to 300 gallons)
- BioQuarium™ series with built-in refugium filtration systems
- Wet/dry, Berlin style and Refugium filtration systems
- Custom aquariums

**Bowing is normal.** Acrylic materials will have a slight bow (deflection) when subjected to outward pressure from the water. This is normal and provides some of the strength of acrylic. This slight elasticity contributes to its impact resistance to shatter.

### Care Tips

With proper care and maintenance, your Clear-for-Life™ Acrylic Aquarium will give you years of enjoyment. The following care tips will help ensure your complete satisfaction. No acrylic material is totally scratch-proof, so be particularly careful when setting up your aquarium, cleaning the aquarium or when adding sand, gravel, coral, and other decorative items.

Never use cleaning solvents on acrylic (e.g. Methyl alcohol, toluene, acetone, chlorinated solvents, dry cleaning fluid, lacquer thinner, gasoline, etc.). Also do not use cleaners or window sprays.

**Crazing** or hairline cracks on the surface of the aquarium may occur with use of products not recommended by Advance Aqua Tanks. **Crazing is NOT covered by our Lifetime Warranty.**

### Recommended Cleaning product for acrylic aquariums

- Brilliance™ Plastic Polish

Advance Aqua Tanks recommends using ONLY Brilliance, and specifically recommends NOT using ANY other acrylic cleaners/polishes.

### Recommended Scratch Removal Product

- Clear-for-Life™ Acrylic Aquarium Scratch Removal Kit. This special kit can restore your aquarium to a bright new finish.

Most dust and dirt can be removed using Clear-for-Life™ Aqua Wipes or soft, lint-free cloth with clean water or a plastic polish (see below).

For additional information or if you have any questions regarding the care of your Clear-for-Life™ acrylic aquarium, call us at (310) 538-4282 or visit us at our website: [www.advanceaquatanks.com](http://www.advanceaquatanks.com)
