### MATERIALS

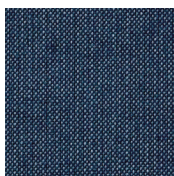

Powder-coated aluminum frame is durable and lightweight. The rustproof nature of the frame provides commercial-grade quality and strength making it ideally suited for outdoor seating. Sunbrella® fabrics are made with close attention to detail. The fabric is tactile yet durable, has industry-leading environmental characteristics, is easy to care for, and offers long life whenever it's used. High-pressure laminate (HPL) is a strong, scratch-resistant table top surface. HPL is designed to be resistant from burns, UV rays, stains, and heat.
