INSTALL BATHTUB

This products must be installed by a fully insured and licensed plumber only.

- 1) Your new bathtub beenmanufactured to the highest possible standards, it has been factory tested and approved.
- 2) When removing bathtub from protective carton. DO NOT LIFT BATHTUB BY PIPE WORK. Inspect for any possible damage that may have occurred in transit. IMPORTANT: Bathtub must be installed level on all top edges.

- 3) Set the bathtub on two 4x4 pieces of lumber .so you can access from the bottom of the bathtub.
- 4) Connect Power Supply:

Connect power supply to control unit. The electrical connections must comply with local authority regulations and must be done by an authorized electrician.

5) Fill bathtub with water to approximately 40 mm above the jets and trial run pump for 10-15 minutes. Check all the fittings for leaks and test the control functions. Switch off the spa pump and leave the unit filled with water (pump is not running) for at least another two minutes. Check the pump and pipes union connections for leaks. Hand tighten union connections if required.

IMPORTANT: Your bathtub has been factory tested and approved. It is the responsibility of the installer to test run the bathtub, check all the fittings for leaks and test the control functions. NON OBSERVANCE WILL INVALIDATE FACTORY WARRANTY.

6) The unit must be connected only to a supply circuit that is protected by a Ground-Fault Circuit Interrupter (GFCI). Such a GFCI should be provided by the installer and should be tested on a routine basis.

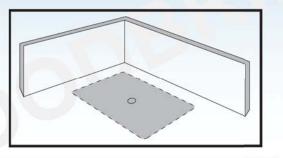

Each Accessory Requires a Dedicated 120V 15AMP GFCI Breaker.

THESE CANNOT BE SHARED

(LED LIGHTS & OZONE CAN SHARE A BREAKER)

INSTALLATION - SITE PREPARATION

- Provide sufficient floor support. Check the floor at the installation site and make repairs as needed.
- Waterproof the floor is highly recommended. Finished floor must be level.
- Provide adequate clearance on all sides of the bathtub.
- Minimum of 2 inch waste drain pipe is required.

IMPORTANT SAFETY RULES

ATTENTION! ALWAYS FOLLOW THESE PRECAUTIONS WHEN USING A BATHTUB

- **Warning** The bathtub must be installed and used as described in this manual
- ▲ Warning Use caution when entering or exiting the bathtub
- A Warning Do not permit children or persons with infirmities to use the bathtub without supervision of an adult
- ▲ Warning People using any medications or having adverse medical history must consult a physician prior to use of the bathtub to avoid potential hyperthermia and possible drowning
- ▲ Warning Water temperature over 100°F may cause hyperthermia and/or other health problems. Check water temperature and adjust it for your personal comfort
- ▲ Warning Never use bathtub while intoxicated, after taking meals or any alcoholic beverages. Consuming alcoholic beverages before or during bathing will cause drowsiness and may result in hyperthermia, loss of consciousness, or even drowning
- A Warning If you are pregnant or you feel that you are may be pregnant, consult your doctor before using the bathtub
- Marning Never use any electrical devices such as hair dryer, lamp, telephone, tv, radio, or others within 5 feet of the bathtub
- ▲ Warning Do not overfill the bathtub before enetering. Entering the bathtub when filled will cause overflow and slippery conditions. Use extreme caution when entering and exiting

Care and Cleaning

- Most dirt will wash off with mild soap and warm water.
- For tough spots, use liquid dish washing soap or non-chlorine bleach.
- Do not use abrasive material such steel wool or scouring pads to clean the acrylic surface.
- Always test the cleaning solution on a small area before using it on the entire surface.
- Do not allow cleaning to soak on the acrylic surface.
- Rinse thoroughly with water immediately and wipe dry with soft cloth.

Repair and Maintenance

- Use liquid polish compound such as Gel-Gloss Kitchen and Bath Polish(TM) to keep the original shine of acrylic surface.
- Light scratches can be removed with polishing compound for automobiles.
- For deeper scratches use wet sandpaper (1500 grit or higher). Always add water when sanding and lightly sand the area larger than the scratch in a circular motion to remove the scratches. Repeat until the scratch is removed. Use soft cloth and small amount of polishing compound to restore shine. Repeat as needed until surface shine is restored.

- IMPORTANT!

DO NOT USE: Abrasive cleaners such as: acid, ammonia, bleach, and simmilar solutions. Use of such solutions may cause corrosion, finish peeling, and/or dull the surface.

DO NOT USE: Abrasive sponges or cloth. Never use steel, wool, or wired brushes that will permanently scratch the surface.

Retain these installation instructions for future reference!
