ASSEMBLY INSTRUCTIONS

STEPS	DESCRIPTION	ILLUSTRATION
1	Carefully unpack all the pieces that come in the package and identify them as the image indicates.	
2	The middle leg comes attached to the middle support by two screws, one on each side. With the help of a screwdriver, remove the screw on the side with two guide holes, turn the leg on to a vertical position (as shown) and screw back the piece with the screw that was removed previously. Both screws are attached one next to the other at this step.	
3	Join the side rails (B) with the headboard (A) using the hooks on each piece. Press hard to make sure they are leveled.	

4	<p>After that, attach the footboard (B) to the side rails (C) with the hooks using the same process.</p>	
5	<p>Next put the middle rail (D) on the "U" pieces already installed on the headboard and footboard. After the middle support is installed, place the MDF panels onto the structure.</p>	
6	<p>Assembly completed.</p>
