# Assembly Instruction Sheet #IS-1027C23-6 For Style 1027C23-6

Tools Required: Flathead screwdriver, Philips screwdriver, pliers, wire cutters, wire strippers, electrical tape, safety glasses.

Light Source: (6) E12 Candelabra Base Bulbs 60W Maximum(Not Include).

Estimated Assembly Time: 30-40 minutes

Preparation: Identify and inspect all parts before beginning installation. Check package content list and diagrams below to be sure all parts are present. If any parts are missing or damaged, do not attempt to assemble, install, or operate the fixture. Contact customer service for replacement parts.

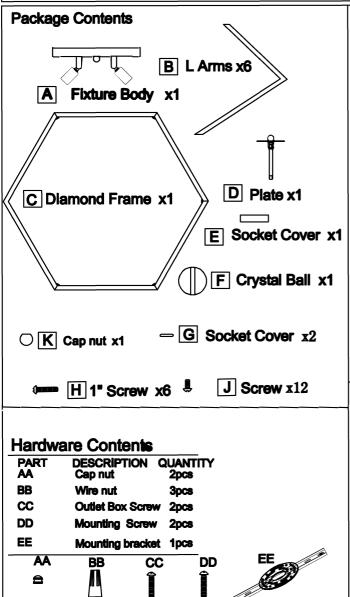

#### ★ Warnings and Cautions

Turn off electricity at circuit breaker or main fuse box before Installation. Consult a licensed electrician if in doubt.

These instructions are provided for your safety. It is very important you read them completely before installing the fixture.

We strongly recommend that a licensed, professional electrician perform the installation.

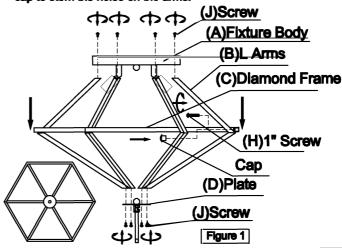

Disconnect fixture from power source before replacing bulbs. Make sure bulbs are given sufficient time to cool before removal.

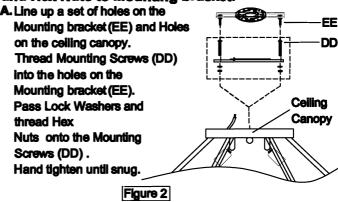

### STEP 1 -Install L Arms and Diamond Frame to Fixture Body.

A.Connect the L Arms(B), Fixture Body(A) and Plate(D) with Screw(J) but please don't tighten them.

B.Put the Diamond Frame(C) into the six L Arms(B), then adjust the arms to six corner place. Line up the holes on the Diamond Frame(C) and the holes on the L Arms. Use the 1"Screw(H) to fix them together, tighten the Screw(J). Use the cap to stem the holes on the arms.

## STEP 2 - Attach Mounting Screws, Lock Washers and Hex Nuts to Mounting bracket.

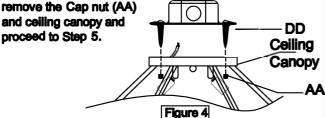

#### STEP 3 - Attach Mounting bracket to Outlet Box

A. Pass the supply wires through the Mounting bracket (EE). Attach the Mounting bracket **Outlet Box** (EE) to the Outlet Box with the head of the Green **Ground Screw** facing you. 8 Secure it with CC **Outlet Box** Supply Wires with Screws (CC). **Outlet Box Screws Ground Wire** Tighten until

#### STEP 4 - Fit Celling Canopy to Mounting bracket Assembly

Figure 3

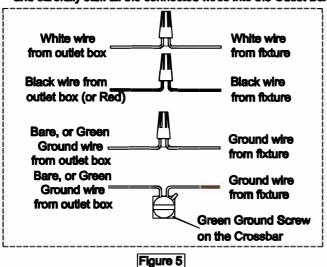

A. Fit the ceiling canopy to Mounting Screws (DD) and secure with Cap nut (AA). Note: The ceiling canopy should be snug against the ceiling and the Cap nut (AA). If not, adjust the length of the Mounting Screws (DD) by unscrewing the Hex Nut and Lock Washer and then screwing Mounting Screws (DD) in or out of the Mounting bracket (EE) until the correct length is achieved. Once the ceiling canopy is secure,

#### STEP 5 - Wire Connections

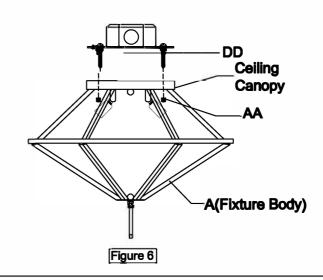

snug.

A. Use standard wire connectors to make all wire connections. Twist connectors until wires are tightly joined together. Wrap each connection with approved electrical tape and carefully stuff all the connected wires into the Outlet Box.

#### STEP 6 - Install Celling Canopy to Celling

A Carefully tuck all wires into the outlet box and position the celling canopy of the Fixture Body (A) over the outlet box. Align the holes in the celling canopy with the Mounting Screws (DD). Secure with Cap nut (AA) and hand tighten until snug.

#### STEP 7 - Install Crystal Ball and Bulbs.

- A. Thread the Socket Coover(E), the Socket Coover(G) and Crystal Ball(F) thrioght the Nibble inorder. Then used Capnut(K) to fix them together.
- B. Install bulbs onto sockets and push snug into place.
