The ceiling fan you purchased will provide comfort and performance in your home or office for many years. This instruction manual contains complete instructions for installing and operating your fan. We are proud of our work and appreciate the opportunity to supply you with the best ceiling fan available anywhere in the world.

We are here to help!

This Instruction Manual is designed to make installation as simple as possible. While working through this Instruction Manual, keep your smartphone or tablet nearby. We have added video links to help you through the more technical sections. If you are unfamiliar or uncomfortable with wiring, contact a qualified electrician. We also provide telephone support at 1.888.830.1326 or visit us at HunterFan.com.

READ and SAVE These Instructions

WARNING

Warning

w.1 - To reduce the risk of fire, electrical shock, or personal injury, mount fan directly from building structure and/or an outlet box marked acceptable for fan support of 70 lbs (31.8 kg) and use the mounting screws provided with the outlet box.

w.2 - To avoid possible electrical shock, before installing or servicing your fan, disconnect the power by turning off the circuit breakers to the outlet box and associated wall switch location. If you cannot lock the circuit breakers in the off position, securely fasten a prominent warning device, such as a tag, to the service panel.

w.3 - To reduce the risk of electric shock, this fan must be installed with an isolating wall control/switch.

w.4 - To reduce the risk of personal injury, do not bend the blade brackets when installing the blade brackets, balancing the blades, or cleaning the fan. Do not insert foreign objects in between rotating fan blades.

w.5 - Chemical burn hazard. Keep batteries away from children. This remote contains a lithium button cell battery. If a new or used lithium button/coin cell battery is swallowed or enters the body, it can cause severe internal burns and can lead to death in as little as 2 hours. Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep it away from children. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention. Dispose of cells properly and keep away from children. Even used cells may cause injury.

w.6 - Non-rechargeable batteries are not to be recharged. Exhausted batteries are to be removed from the product.

Caution

c.1 - All wiring must be in accordance with national and local electrical codes ANSI/NFPA 70. If you are unfamiliar with wiring, use a qualified electrician.

c.2 - Use only Hunter replacement parts.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: modifications not approved by the party responsible for compliance could void user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This product conforms to UL Standard 507.

Here are the tools you'll need to complete your installation:

Ladder

Screwdriver

Pliers

Wire Strippers

OPTIONAL

If mounting to a support structure, you will also need these tools.

Drill

9/64" Drill Bit

Memphis TN 38016

Here is what comes in your box:

We recommend that you pull everything out of the box and lay it out. We have grouped the drawn components below with the hardware you'll need for those parts. The screws below are drawn to scale to make it easier to identify what piece of hardware is needed to install each component.

Hunter Pro Tip:

Do not discard the hardware bags or mix parts from different bags. Make note of the symbol printed on each hardware bag. The symbols can be used to identify the appropriate hardware for each step.

BAG (Star symbol)

Wood Screw x2

Washer x2

Wire Nut x4

Locking Screw x2

For installing the hanger bracket and wiring the fan

Ceiling Bracket

Motor

BAG (Black circle symbol)

Motor Housing Screw x4

For installing the housing

BAG (Black square symbol)

Blade Washer x9

BAG (Black triangle symbol)

Blade Screw x9

BAG (Black X symbol)

Lower Housing Screw x4

Blade x3

For installing the blades

BAG (Black circle symbol)

Spare Parts

For your convenience, you may receive extra fasteners.

Motor Housing

Lower Housing

Upper Switch Housing

LED Assembly

LED Cap

BAG (Black horizontal lines symbol)

Light Kit Screw x7

For installing the light kit

Note:

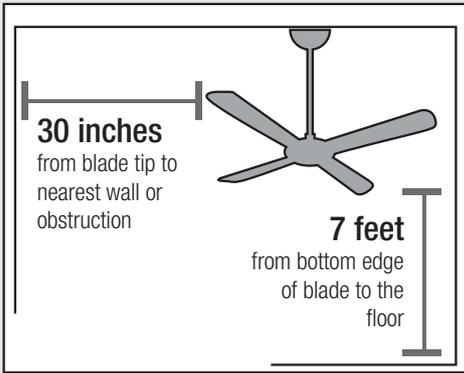

Fan style may vary.

Find a part that is missing or damaged? Don't take it back to the store. Let us make it right. Visit us at HunterFan.com or call us at 1.888.830.1326.

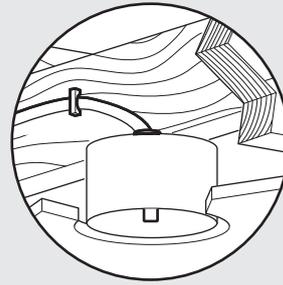

Choosing the Right Installation Location

You probably bought this fan with a location in mind. Let's check below to make sure it is a good fit.

Check the room dimensions:

Check the outlet box:

You must be able to secure the fan to building structure or fan-rated outlet box.

Installing the Ceiling Bracket

You have two options for installation. Pick which one works best for your location.

Do this first!

Option 1: Machine Screws

Use machine screws (provided with outlet box) when securing to existing ceiling fan-rated outlet box. Make sure it is securely installed and is acceptable for fan support of 31.8 kg (70 lbs) or less.

Hunter Pro Tip:

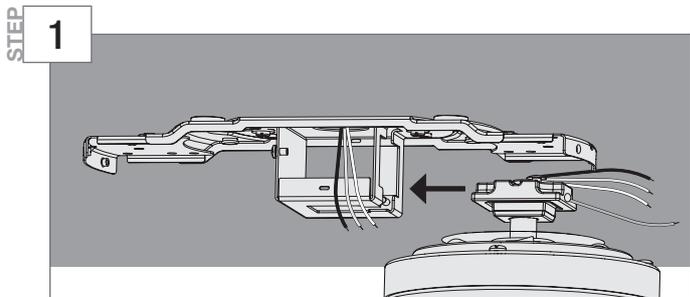

The machine screws are the ones that came with your outlet box.

Option 2: Wood Screws

Use wood screws (included) when securing to support structure with approved electrical outlet box. Drill 9/64" pilot holes in support structure to aid in securing ceiling bracket with hardware found in the ★ hardware bag.

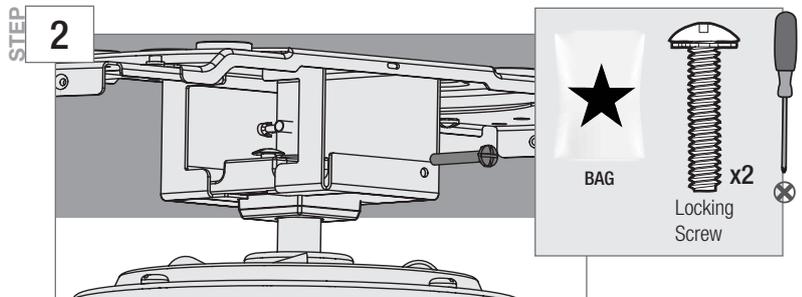

Hanging the Fan

While holding the wires out of the way, lift the motor assembly and place the square hanger into the opening in the ceiling bracket. Be sure the ground wire attached to the hanger faces out of the large opening in the ceiling bracket.

NOTICE

To prevent damage to fan, ALWAYS lift holding either the fan housing or the downrod.

Once the motor is in the ceiling bracket, use the two locking screws found in the ★ hardware bag to secure the motor to the ceiling bracket.

Wiring the Fan

We know wiring is hard. Let's make it easier.

Follow these steps to get your fan wired quickly and safely. Follow the route below that best matches your wall switch setup. If you are unfamiliar with wiring or uncomfortable doing it yourself, please contact a qualified electrician.

Have a single switch? Follow these steps:

Hunter Pro Tip:

Here is how to connect the wires:
Push the bare metal ends of the wires together and slide a wire nut over them. Then, twist the wire nut clockwise until tight. Give it a gentle pull to make sure none of the wires are loose.

! WARNING The ceiling fan must be grounded. If the ground wire for the installation site is not present, immediately **STOP** installation and consult a qualified electrician.

! WARNING All wiring must be in accordance with national and local electrical codes ANSI/NFPA 70. If you are unfamiliar with wiring or in doubt, consult a qualified electrician.

Hunter Pro Tip:

Have extra wiring?
Turn the wires upward and push them carefully back through the hanger bracket into the outlet box. Spread the wires apart, with the grounded wires on one side of the outlet box and the ungrounded wires on the other side of the outlet box. Make sure that the wires are still attached to the wire nuts.

Have dual switches? Follow these steps:

Note:
Fan style may vary.

LPSKY-01 r091420

Installing the Motor Housing

Partially install two of the canopy screws into screw holes on opposite corners of the ceiling plate as shown. Choose the two screw holes that are aligned with the hanging slots in the fan body.

Align the hanging slots on both sides of the fan body with the two partially installed canopy screws. Slide the two slots on both sides of the fan body between the head of the screws and rotate the fan body counter clockwise so the screws hold the fan body firmly in place.

Install the remaining two canopy screws by holding the fan body cover to the ceiling mounting plate. Tighten all four screws securely.

⚠ WARNING

FAN FALL HAZARD
Make sure to secure the canopy.

Installing the Lower Housing

There are four holes on the motor. Lift the lower housing with the holes of the motor and align the grommet holes in the lower housing with the holes of the motor. It does not matter which hole you choose. Install the lower housing screws found in the hardware bag  to secure the lower housing to the fan.

Note:

Fan style may vary.

Installing the Blades

Put the blade washers found in the  hardware bag onto the blade screws found in the  hardware bag. Then install the blade screws to secure each blade to the fan.

Repeat x3

⚠ IMPORTANT

NOTE: Follow the instructions on the blade. Installing it incorrectly could result in your fan not functioning.

Assembling the Light Kit

Partially install two light kit assembly screws, found in the hardware bag, halfway into the motor housing as shown. It does not matter which two screw holes you choose.

Align the keyhole slots in the top of the light kit assembly with the partially installed assembly screws. Rotate the keyhole slots around the screws and twist counterclockwise. Tighten all three screws securely.

Raise the LED assembly to the trim ring. Align the screw holes in the LED assembly with the screw holes in the trim ring. Screw two light kit assembly screws, found in the hardware bag, through the LED assembly and into the trim ring.

Connect the single-pin connectors from the LED assembly to the connectors from the fan. Connect the white wires together. Connect the blue and black wires together. Tuck the excess wiring above the LED assembly or feed back into the lower switch housing.

Raise cap to the LED assembly. Align the notches on the sides of the cap with the screw holes in the LED assembly. Install the two LED assembly screws which can be found in the hardware bag.

⚠ WARNING

FAN FALL HAZARD

Make sure all screws are tight to secure the light fixture.

Installing the Glass

Lift the globe and align the notches in the globe with the tabs in the light kit.

Attach the globe by lifting and turning clockwise one third of a full turn of the glass until it stops.

NOTE: Check to ensure proper engagement.

⚠ WARNING

GLASS FALL HAZARD

To prevent SERIOUS INJURY or DEATH, make sure that glass is properly secured.

Preparing the Remote

The remote control is already paired for use. For your convenience, a remote function card is packed in with your remote.

NOTICE

- Always purchase the correct size and grade of battery most suitable for the intended use.
- Replace all batteries of a set at the same time.
- Clean the battery contacts and also those of the device prior to battery installation.
- Ensure the batteries are installed correctly with regard to polarity (+ and -).
- Remove batteries from equipment which is not to be used for an extended period of time.
- Remove used batteries promptly.

Key Press	Function
+ Quick Press	Light On/Off
+ Long Press	Light Dimming
+ Quick Press	Fan On/Off
+ Quick Press	Raise Fan Speed
+ Quick Press	Lower Fan Speed
Long Press +	Fan Updraft
Long Press +	Fan Downdraft
Long Press +	Enable Beep
Long Press +	Disable Beep
Long Press +	Dimming Mode On/Off

Installing the Remote Control Cradle

You have two options for installing the remote cradle. Choose which path works best for you.

Option 1: Using Adhesive Strip

Option 2: Using Screws

If you are installing into drywall, drill two 9/64 width holes using the cradle bracket as a guide. Gently hammer the included drywall anchors into the pre-drilled holes.

Fan Doesn't Work

- Make sure power switch is on.
- Pull the pull chain to make sure it is on.
- Push the motor reversing switch firmly left or right to ensure that it is engaged.
- Check the circuit breaker to ensure the power is turned on.
- Make sure the blades spin freely.
- Turn off power from the circuit breaker, then loosen the canopy and check all the connections according to the wiring diagram.
- Check the plug connection in the switch housing.

Excessive Wobbling

- Make sure the blades are properly installed on the blade iron posts.
- Turn the power off, support the fan carefully, and check that the hanger ball is properly seated.
- Use the provided balancing kit and instructions to balance the fan.

Noisy Operation

- Make sure the blades are properly installed.
- Check to see if any of the blades are cracked. If so, replace all of the blades.

Hunter Pro Tip:

Cleaning the Fan

Use soft brushes or cloths to prevent scratching. Cleaning products may damage the finishes.

Limited Lifetime Warranty

Hunter Fan Company grants this limited warranty to the original purchaser of this Hunter ceiling fan. This document can be found at www.HunterFan.com. Thank you for choosing Hunter!

How Can Warranty Service Be Obtained?

Proof of purchase is required when requesting warranty service. The original purchaser must present a sales receipt or other document that establishes proof of purchase. Hunter, at its sole discretion, may accept a gift receipt. To obtain service, contact Hunter Fan Company online or by phone.

www.HunterFan.com/Support/Contact-Us/
1-888-830-1326

Please do not ship your fan or any fan parts to Hunter. Delivery will be refused.

What Does This Warranty Cover?

Motor — Limited Lifetime Warranty

If any part of your ceiling fan motor fails during your ownership of the fan due to a defect in material or workmanship, as determined solely by Hunter, Hunter will provide you with a replacement fan free of charge.* The foregoing limited warranty applies only to the motor itself and does not apply to electronic controls — such as remote control transmitters, remote control receivers, or capacitors — used in conjunction with the motor. Such electronic control items are included in the one-year limited warranty below.

Other — One-Year Limited Warranty

Except as otherwise indicated throughout this warranty, if any part of your Hunter ceiling fan fails at any time within one year of the date of purchase due to a defect in material or workmanship, as determined solely by Hunter, Hunter will provide a replacement part free of charge.*

Light Kits — Warranty May Vary

Light kits are included in the one-year limited warranty. However, you may qualify for additional warranty coverage if your fan includes one of the following:

- **LED Light Kits — Three-Year Limited Warranty**

If your LED light kit module (not including glass components) or LED bulb fails at any time within three years of the date of purchase due to a defect in material or workmanship, as determined solely by Hunter, Hunter will provide a replacement part free of charge.*

** If no replacement product/part can be provided for your fan, we will provide a comparable or superior replacement product/part at the sole discretion of Hunter.*

What Does This Warranty NOT Cover?

Labor Excluded. This warranty does not cover any costs or fees associated with the labor (including electrician's fees) required to install, remove, or replace a fan or any fan parts. There is no warranty for light bulbs (except where otherwise noted); remote control batteries; fans purchased or installed outside the United States; fans owned by someone other than the original purchaser; fans for which proof of purchase has not been established; fans purchased from an unauthorized dealer; ordinary wear and tear; minor cosmetic blemishes; refurbished fans; and fans that are damaged due to any of the following: improper installation, misuse, abuse, improper care, failure to follow Hunter instructions, accidental damage caused by the fan owner or related parties, modifications to the fan, improper or incorrectly performed maintenance or repair, improper voltage supply or power surge, use of improper parts or accessories, failure to provide maintenance to the fan, or acts of God (e.g. flood).

ORIGINAL PURCHASER'S SOLE AND EXCLUSIVE REMEDY FOR A CLAIM OF ANY KIND WITH RESPECT TO THIS PRODUCT SHALL BE THE REMEDIES SET FORTH HEREIN. HUNTER FAN COMPANY IS NOT RESPONSIBLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, DUE TO PRODUCT FAILURE, WHETHER ARISING OUT OF BREACH OF WARRANTY, BREACH OF CONTRACT, OR OTHERWISE. Some States do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE APPLICABLE TO THIS PRODUCT ARE LIMITED IN DURATION TO THE PERIOD OF COVERAGE OF THE APPLICABLE LIMITED WARRANTIES SET FORTH ABOVE. Some States do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you.

How Does State Law Affect Warranty Coverage?

This warranty gives you specific legal rights. You may also have other rights which vary from state to state.
