DESCRIPTION

Nauticau combines the soft touch and luxurious look of leather with the ability to withstand the harshest weather conditions. Nauticau brings indoor luxury to the outdoor living area. This healthcare-grade fabric is also an excellent choice for medical and assisted living facilities. In either setting, Nauticau brings an unexpected level of elegance.

DURABILITY

Used for years as upholstery in the maritime industry, this PVC-coated fabric has watertight stitching, is mold and mildew resistant, withstands extreme temperatures, and resists fading. Both flexible and tough, this marine and healthcare grade PVC material has no special care requirements and is virtually waterproof.

CARE AND MAINTENANCE

Clean regularly using a soft rag and mild soap or a marine grade synthetic leather cleaner/conditioner. Rinse thoroughly, and dry with a clean rag. Avoid bleach and cleaners that are acidic, alkaline, or abrasive. To prevent stains, clean spills immediately. Nauticau should be kept free of dirt and grime and covered when not in use.

WARRANTY

Oxford Garden® warrants all outdoor furniture and accessories to be free from manufacturing defects in materials and workmanship. Provided the furniture is assembled correctly and is subjected to normal use, Oxford Garden® warrants Nauticau fabric for a period of one (1) year from date of purchase against becoming unserviceable due to color or strength loss from normal usage and exposure conditions. Oxford Garden® also warrants all hardware used in the construction of its outdoor furniture for a period of three (3) years from the date of purchase to be free from defects and against structural failure. For more details regarding the Oxford Garden® warranty, visit www.oxfordgarden.com/warranty.

TECHNICAL SPECS

PROPERTIES	STANDARD VALUE
Tensile Strength	MD≥300N/5CM CD≥350N/5CM
Tear Strength	MD≥40N CD≥40N
Peeling Strength	≥30N/5CML
Abrasion Resistance (Wyzenbeek)	≥100,000 Cycles
Abrasion Resistance (Martindale)	≥50,000 Cycles
Flexing Resistance	≥50,000 Cycles
Heat/Cold Resistance	-4°~176°F (-20°~80°C)
Color Fastness to Abrasion-Dry	≥4 Grade
Color Fastness to Abrasion-Wet	≥4 Grade
Color Light Fastness	≥4 Grade
Anti-UV	≥650H
Mold Proof	≤1 Grade
Stain Resistance	PASS
Flame Retardancy	PASS (US, UK, AU, China)
