assembly instructions

Friendly Tip: Take a deep breath going in. This may be a tricky part, but nothing too overwhelming. Just follow these steps to the T and the outcome will be worth it!

- ⓘ While assembling the product, tighten the bolts up to 50%. Once all parts are in place, only then fully tighten the bolts.

step 1:

Place shelf (B) on a rug or cardboard and unscrew the bolts on top by twisting them anti-clockwise. See this image for reference.

step 2:

Next, align shelf (B) with the metal rod (A) in such a way that the green (GS) and orange (OS) stickers on the shelf line up with their respective counterparts on the metal rod.

step 3:

Insert the top of the shelf (B) into predrilled slots on the metal rod (A). Fix it in place by tightening the bolts removed in step 1.

step 4:

Repeat steps 1, 2, and 3 to fix shelves (C and D) in place.

installation instructions

- ⓘ While assembling the product, tighten the bolts up to 50%. Once all parts are in place, only then fully tighten the bolts.

step 1:

Measure the distance between the two keyholes using a measuring tool.

step 2:

Place the measuring tool against the wall and make two marks where you want to mount the shelf.

step 3:

Drill holes at the points you just marked.

step 4:

Using a hammer, insert wall plugs (F) inside the holes.

step 5:

Fix the screws (E) into the wall plugs (F). Use a screwdriver to make sure that they are secure.

step 6:

Hang the shelf by placing the keyhole slots over the screws (E).

Voila! Your shelf is now assembled and secure!
