## GENERATION LIGHTING Chandelier

### GENERAL PRODUCT INFORMATION:

These fixtures are intended to be installed utilizing NEC compliant junction boxes.

This product is safety listed for dry locations.

Incandescent lamps may be dimmed with a standard incandescent dimmer. LED lamps may be dimmed with a LED dimmer. Consult lamp manufacturer for additional information.

#### CAUTION - RISK OF FIRE

This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

Use minimum 90°C supply conductors.

- 1** Install the candle tube by slipping it through the socket.
- 2** Install the shade by placing it over the candle tube.
- 3** Screw the lamp into the socket. Refer to the label on the lamp socket for Max Wattage information. Repeat steps 1-3 for remaining sockets.
- 4** Using the help of another person, connect the upper tier of the chandelier to the hub by hooking each of the long fixture arms into the corresponding hook.
- 5** Using the help of another person, connect the lower tier of the chandelier to the upper tier by hooking each of the short fixture arms into the corresponding hook.
- 6** Follow enclosed supplement installation instructions for electrical and fixture installation onto house outlet box.
