Fixture Type:

Step 2

Description

Step 2 is an energy efficient outdoor, IP65, wet rated brick step light made of a die cast zinc magnesium housing with a 3 x 1/2" knock out for feed through. Additional mounting screws for hanger bars are supplied for new construction. It is offered in warm white, amber, or blue LED with brushed nickel, antique bronze, or white finish. There are 3 different face plate options including white opal lens, horizontal louver or horizontal cover. The cover is made of die-cast zinc-magnesium.

Mounting

- Suitable for vertical and horizontal orientation
- Hole cut out: REFER TO INSTALLATION INSTRUCTIONS
