stud finder
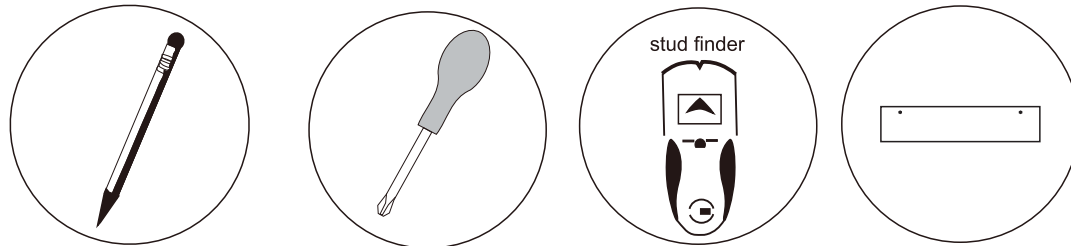

HARDWARE

plastic dry wall anchor
Size:6mmØ×30mm L

philip head screws
Size:4mm dia.×30mm L

stud mounting screw
Size:4mmØ×50mm L

ⓐ

ⓑ

ⓒ

NOTE:

· For drywall mounting, use anchors with screws.
· For stud mounting, use stud mounting screw.
· If walls are concrete or plaster, please consult your local hardware store.
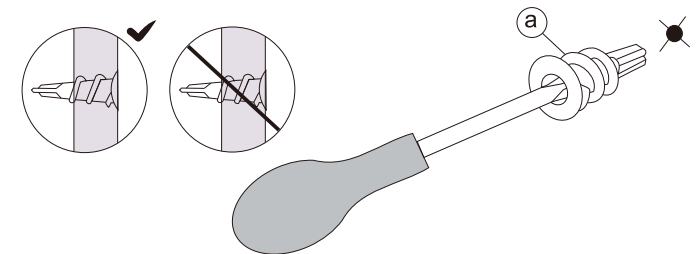

STEP1

Assemble those two parts together

STEP2

Drywall Mounting(**2**a)Determine placement of shelf on wall. Using the enclosed paper template, stick it on the wall at the desired position to determine the location of the screws. Drill a 2mm (3/32") hole through the paper into the wall for each screw needed. Remove paper template from the wall.

Stud Mounting(**2**b)Using a stud finder, locate and carefully mark the location of studs on the wall where you want to hang your shelf.
Note: It is best to mount the shelf to at least one stud.

STEP3

Dry wall mounting:(**3**a)Place Philips screw driver into anchor ⓐ .Press the anchor into wall, then turn clockwise until anchor is flush with the wall.
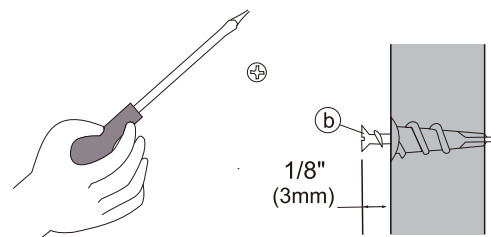

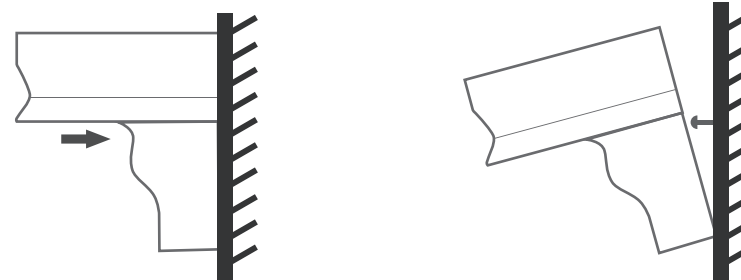

ⓐ

Stud Mounting:(**3**b) Skip to step 4

STEP 4

Dry wall mounting:(**4**a) Insert screws b into anchors.

ⓑ

1/8"
(3mm)

Stud Mounting:(**4**b)Using Philips

STEP 5

Hang shelf.

NOTE: Tighten screw and re-hang
