6

Controls

LED Touch Control

With its rounded corners and slim design, the PLJW 120 is one of our most popular under cabinet hood models. We offer it in our 4 most common sizes as a smaller hood that is quiet and still powerful enough to get the job done. This hood has a six speed, 900 CFM blower and a simple to use LED touch control panel. With our optional recirculating kit, the 120 can be converted to a ductless hood for an easy, hassle-free installation.
