

Legata

COLLECTION

MACHINE-MADE FROM 100% POLYPROPYLENE

The Legata Collection is a compilation of textured lines and curves that create remarkable geometric and even pure abstraction forms. Each of the multi-color designs molds into shape and symmetry for your unique outdoor or indoor living spaces. Machine-made in Turkey of 100% Polypropylene, the Legata collection is the perfect complement to any outdoor space. The durable fibers not only make this collection fade and heat resistant but tough enough to handle high traffic areas throughout your home.
