Installation, Care Guide and Warranty

Cast Iron Clawfoot Tub

IMPORTANT:

Observe all state and local building codes.

Carefully read all installation and care instructions before proceeding.

NOTICE: Do not change or modify the product in any way. Doing so may compromise the products structural integrity and will void the warranty.

NOTICE: Installation instructions must be followed. Any diversion may risk property damage and will void the warranty.

NOTICE: When moving your tub be sure to **lift**, never slide or pull, doing so may result in damage to the product or surrounding area.

NOTICE: If you are unfamiliar with tub installation please consult a professional.

NOTICE: Due to weight of cast iron tubs, be sure that your floor structure can support the total weight of your filled tub (reference the table on page 2)

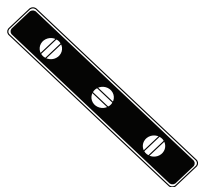

CAUTION: AS CAST IRON TUBS ARE EXTREAMLY HEAVY IT IS RECOMMENDED TO USE EXTRA PERSONEL FOR INSTALLATION.

CAUTION: AFTER INSTALLATION MAKE SURE THERE ARE NO LEAKS BY FILLING TUB WITH WATER AND DRAINING

PHILLIPS SCREWDRIVER

PLUMBERS' PUTTY

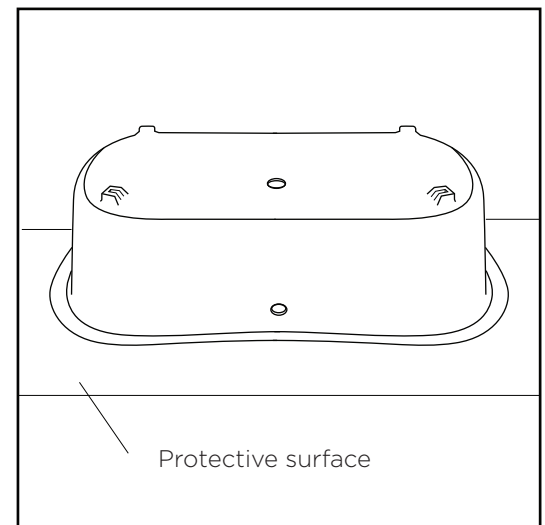

Note: If feet are pre-installed continue to Tub Installation Section

FEET INSTALLATION

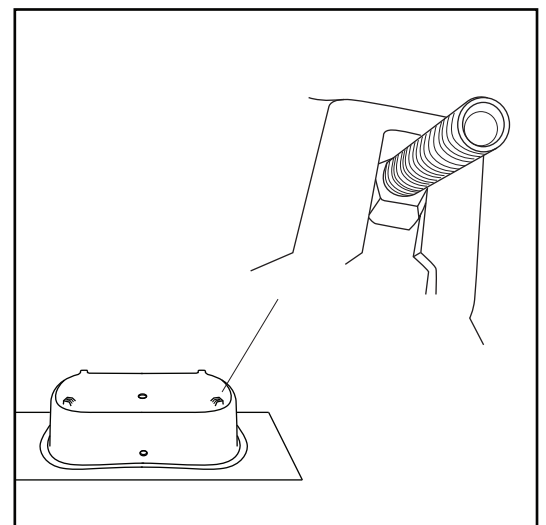

Parts Included:

- 4x feet
- 4x bolts
- 4x flat washes
- 4x split lock washed
- 4x nuts

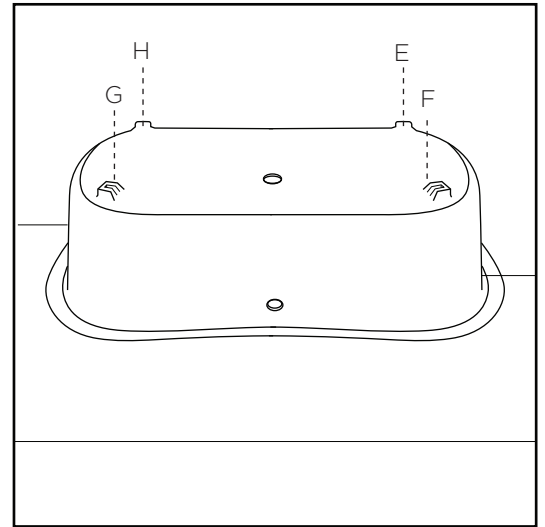

1. Remove the tub from packaging and place upside down on a protective surface, such as a blanket or a mat. Insure that the bottom of the tub is clean and free of debris.

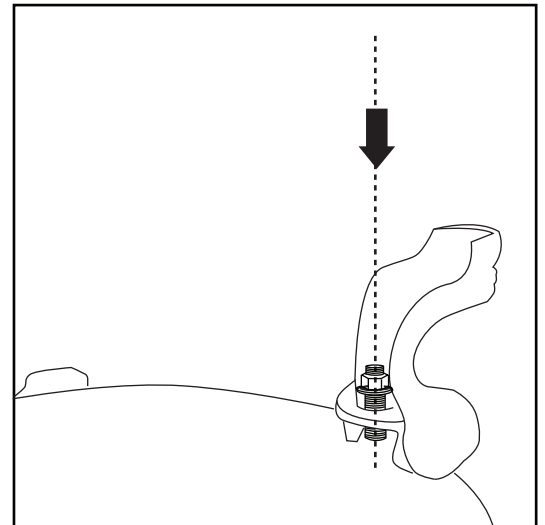

2. Slide the threaded bolts into the tub legs.

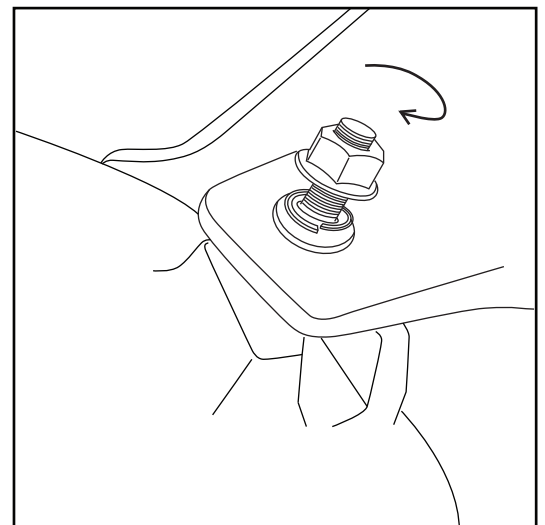

3. Match the feet to the corresponding letters on the bottom of the tub (failure to do so will result in feet that do not line up to the tub properly).

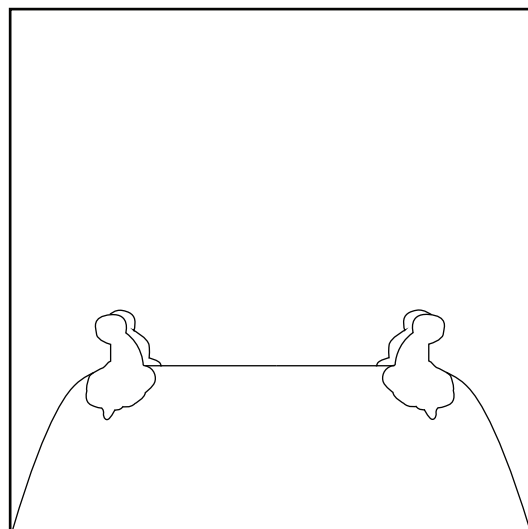

5. Taking the first foot, thread the bolt through, making sure to adjust the foot as need to light up properly to the tub.

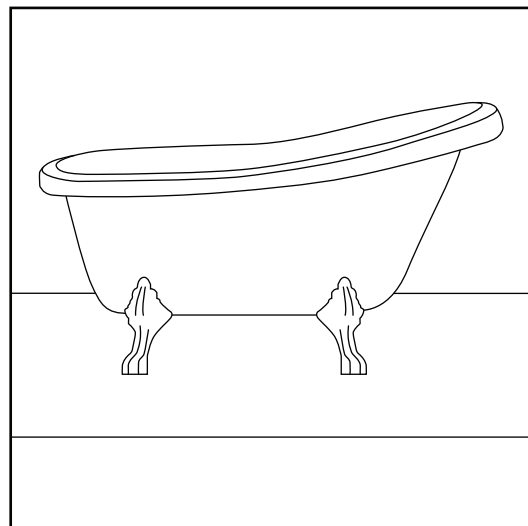

6. Place the washer, split lock washer, and nut on the bolt in order and tighten the nut.

7. Repeat steps 5-6 until all feet are inplace.

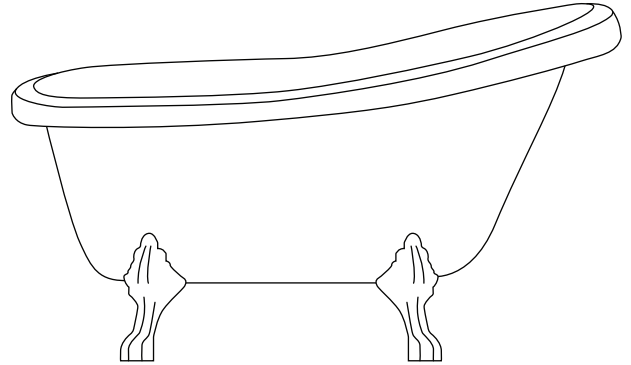

8. Carefully flip the tub upright and continue on to Tub Installation.

Continue to Tub Installation

TUB INSTALLATION

1. Determine the location of the drain pipe on the floor by measuring the drain and waste location under the tub. (This will vary on each tub)
2. Carefully set the tub into position and connect the pre-installed drain to the waste water pipe.
3. Fill the tub to check for any leaks in waste connections below. (access below the floor will be necessary)
4. For faucet installation consult the manufacturer's instructions.

CARE GUIDE:

Care: Rinse thoroughly and use a soft cloth to wipe the product dry after each use to prevent hard water stains.

Cleaning: Use a non-scratch sponge or a soft, microfiber cloths with non-scratch cleaners.
