Steam line	5/8" copper line, 5/8" NPT female thread
Pressure relief valve	Built in pressure relief valve
Drain line	1/2" copper line, 1/2" NPT female thread

## Installation Notes

Install this product according to the installation guide.  
 Factory sized: L x H x W = cubic feet. Choose the appropriate model. For every foot of ceiling height over 8 ft use the next larger steam unit. Always round your measurements up. Wall material is irrelevant.  
 For this steam generator, do not exceed the maximum volume rating:

Dedicated circuit required	
Generator: B-450	4.5KW, 240V, 19A,

Steam generator model	Power rating	Maximum volume rating
Generator: B-450	4.5KW,	90 cu ft
