## Raclette Melter ZINAL

The Raclette Melter ZINAL can hold a 1/2 wheels of cheese or a rectangular pieces of cheese. The unit is suitable for use in a restaurant or other professional environment. Features include an elevating and lowering system, which allows for the cheese to be moved the preferred distance from the heating unit. Once the cheese is melted each individual unit can be tipped to scrape off the cheese. The holding units may be swiveled out from under the heating elements to cease melting. The body is made of brushed stainless steel, handles are lacquered wood. This is a heavy unit made to last.
