---

## HML1 HIGH-PERFORMANCE HIGH BAY

---

**CAST ALUMINUM HOUSING**  
Allows operation up to 131°F (55°C)

**10X14 FOOTPRINT**  
Compact design offers an impressive light output with simple, single-person installation.

**LENS OPTIONS**  
Diffused lens reduced glare. Aisle option designed to reduce fixture count.

**INTEGRATED SENSOR SOCKET**  
Optional socket allows use of low voltage sensors.

## NICOR INTRODUCES THE NEWEST HIGH BAY PRODUCT LINE

The patent pending, ultra-efficient, high-performance HML high bay. With only a 10"x14" footprint, its compact design offers an impressive light output with simple, single-person installation. The DLC 5.1 Premium certified fixture offers a variety of wattage, sensor, and aisle distribution options. It's durable single-piece cast aluminum design is perfect for rugged applications like warehouses, gymnasiums, and other industrial or commercial spaces.

**APPLICATIONS:** Ideal for Warehouses, gymnasiums, and other industrial or commercial spaces.

### Ordering Information
