To use a cam lock: (Please read below instructions before assembling)

1. Insert cam screw into hole as shown in diagram A .

Too deep as shown in figure B as this will cause the
cam screw to be misaligned and unable to
interlock properly.

Diagram C

Also avoid inserting the cam screw too close to the

cause the cam lock to be too loose, and not interlock
properly.

3. When inserting the cam lock make sure the arrow
of the cam lock faces the cam screw.
