

Top 10 Reasons for Choosing Telescope Director Chairs

Quality standards are maintained and improved by independent lab testing and Telescope's own testing facilities.

All back covers have a non-sag feature. One size seat and back fits all Director Chairs.

All frames are select, kiln-dried solid hardwoods. They are shaped and hand sanded.

All wood parts are precision-milled, pressed together and nailed for maximum rigidity.

The seating material slips into a specially designed groove. No tools are needed.

Extra heavy-duty, corrosion-resistant, zinc-plated steel braces are 50% stronger than previous braces.

The tapered, shaped legs are nailed securely into a beveled seat block with mortise and tenon style joinery.

Extra-strong leg braces are nailed securely into the legs.

The arm and chair framing folds down compactly and packs easily into a box.

Self-leveling plastic glides on the legs help to prevent marring of floors. Screws make these glides easily replaceable.

The Original World Famous Director Chair

No other director chair offers you so much. Eye catching design, personal comfort, quality construction and economical pricing. Don't be fooled by imitations. Demand the original director chair by Telescope... Telescope invented the slip-in seat and back design in 1953. Patented for many years, our World Famous chair eventually became the industry standard. Perfect for Trade Shows, Exhibits, Hospitality Suites, Showrooms, Office Interiors and so much more. Ideal for Prizes, Incentives and Awards. An outstanding selection of fabrics, finishes and seat heights to choose from. We offer two styles of Director Chairs...The World Famous and The Heritage.
