

Reno Stainless Steel Shower Panel Rain Style Massage Jets System with Handheld Shower

Hanging Instruction

Horizontal Hanging instruction:

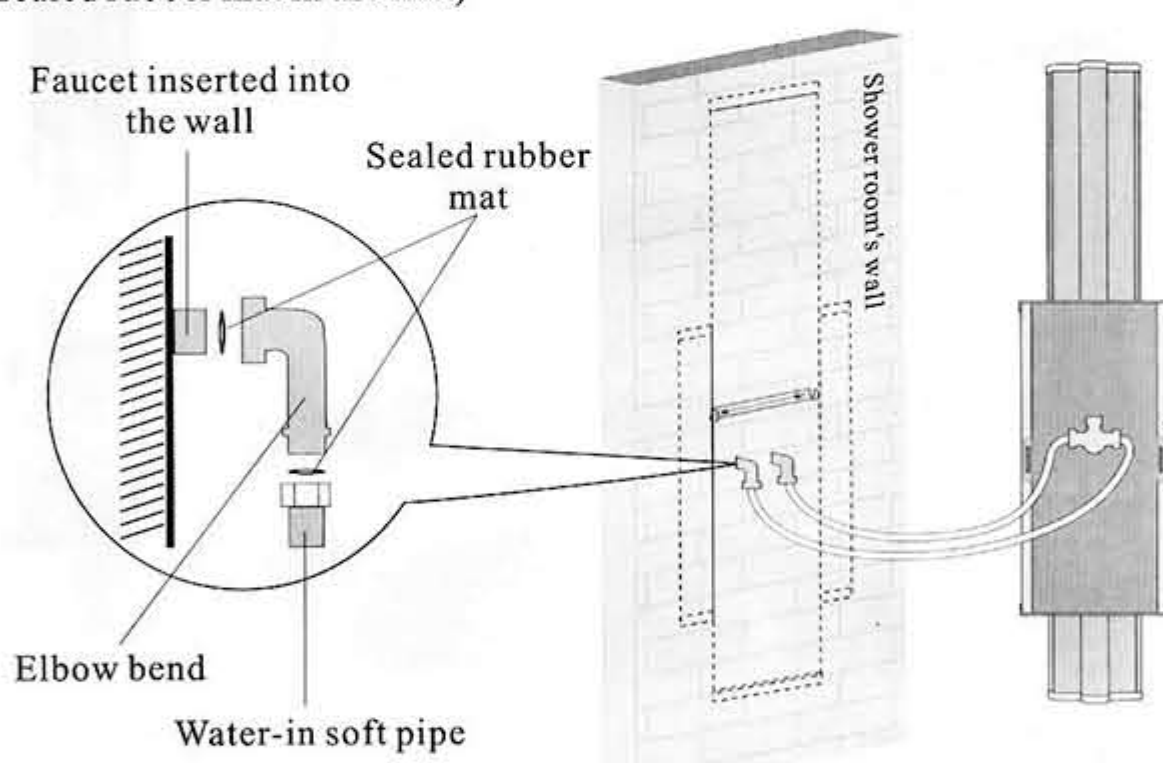

Confirm the installation place and height, fix the horizontal hangers on the wall. The shower panel can be used after hanging it.

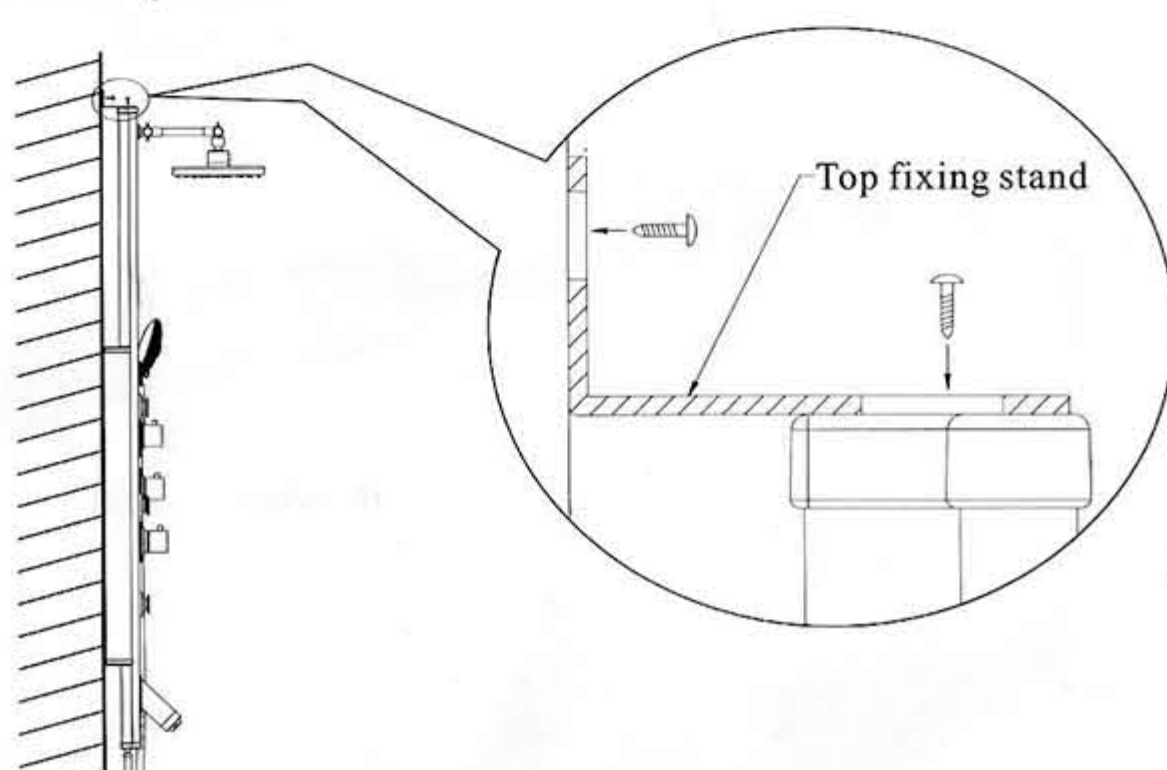

Linking instruction

Hidden Linking instruction:

Join the elbow bend to the faucet inserted into the wall together according to the picture, then join the hot and cold water in soft pipe together with two elbow bends. The shower panel can be put into use after hanging it (use the sealed rubber mat in the link)

In order to fix more firm, using top fixing stand is suggested. Installation is as nether picture.

This General diagram and installation instructions are not intended for any specific model, but is presented as a general guideline for Installations!
