WINDOW REQUIREMENTS

NOTICE

Maximum window thickness including non-removable handle: 2-7/8"

1. INSTALL THE SUPPORT BRACKET

WARNING

- Bracket should only be used for its intended purpose. If not, the warranty will be voided.
- You must follow the detailed installation instructions in the user manual.

- 1.1 Adjust the left extension arm out and install the right extension arm. Set the bracket in your window.

WARNING

Maintain control of the bracket until installation is complete.

- 1.2 Adjust the angled support arms until they touch the exterior wall. Check that the bracket is properly tilted downwards toward the outdoors. Install the support pins and cotter pins then extend the left and right extension arms.

1. INSTALL THE SUPPORT BRACKET (cont.)

1.3 Secure the bracket to the window with a screw at the end of each extension arm as shown. Holes at the end or bottom of the Extension Arms can be used to secure the Support Bracket to the window.

2. SECURE THE UNIT ON THE BRACKET

2.1 Set the air conditioner on the support bracket and fold down the side arm hinges.

WARNING

Do not leave the unit unattended during installation.

2.2 You must install the Open Window Brackets.

WARNING

Failing to do this could cause injury or property damage.

3. SEAL AND CLOSE THE WINDOW

3.1 Measure, cut and install the side arm foam.

WARNING

Do not leave the unit unattended during installation.

3.2 Secure the anti-tip brackets into the window track and then close the window.

WARNING

You must extend the Anti-Tip Brackets into the Window Track Opening. Failure to follow this warning may cause serious injury.

3.3 Use the included foam to seal any gaps between the window and the air conditioner.

3.4 Extend both window locks located in the window slot. For additional security, install the window sash lock.

FAQ Why does the air conditioner not start?

- Wall plug disconnected. Push plug firmly into wall outlet.
- House fuse blown or circuit breaker tripped. Replace fuse with time delay type or reset circuit breaker.
- Check if the light on the plug is on. If it is off, press the RESET button.
- Power is OFF. Turn power ON.

FAQ Why is there noise during cooling?

- It is normal to hear airflow, set to a slower fan setting if too loud.
- Window vibration - poor installation. Refer to installation instructions or check with installer.

FAQ Unit will not connect to Wifi or App does not work?
