MSRP: **\$159.99**

THE LEARNING TOWER®

The Learning Tower® by Little Partners® has been carefully designed to provide a secure environment to stimulate a child's imagination and allow it to blossom. By raising a child up to counter height, it nurtures a child's innate desire to be independent and to participate alongside his or her parents and siblings, whether it's to help out with nightly dinner preparations, bake special holiday recipes, or get crafty. For children, the world is a magical and curious place. They learn by mirroring Mommy and Daddy with the ultimate goal of being able "to do it myself." The Learning Tower® allows them to feel like an active member of the family, fully engaged in the learning and creative process.

PRODUCT INFORMATION

The Learning Tower® by Little Partners® is the original learning tower providing safety and versatility not found with traditional step stools.

Children can climb up to counter height and learn and explore alongside parents, caregivers, siblings and friends.

Two steps and large openings make climbing in and out easy.

Large platform provides plenty of space for one or two children.

Platform adjusts to 4 heights easily without tools. (Level 1 : 10.59", Level 2: 13.19", Level 3: 15.79", Level 4: 18.39").

Four-sided railings provide security while allowing independence to climb in and out of the tower.

Fits flush against counters for safe access.

The Learning Tower® has been strategically designed with a heavy build to prevent children from moving it easily, tipping, or pushing it over.

Designed to meet the needs of young toddlers 2 years and up and up to 250lbs.
