Step 4 Parts list

NO.	PART NAME
1	Handle
2	Screw
3	Handle button
4	Adapter
5	Handle flange
6	O ring
7	Cartridge(hot water)
8	Inlet pipe
9	Gasket assembly
10	Lock nut
11	Screw
12	Spout
13	O ring
14	Gasket assembly
15	Lock nut
16	Washer
17	Connector
18	Aerator
19	Cartridge(cold water)
20	Aerator wrench
21	Allen key
22	Flexible hose
23	Plug

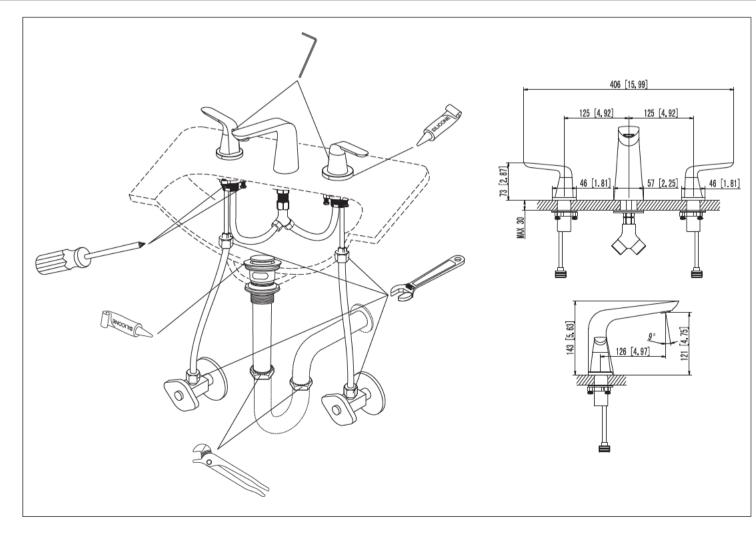

WIDE SPREAD LAVATORY FAUCET

ASME A112.18.1/CSA B125.1

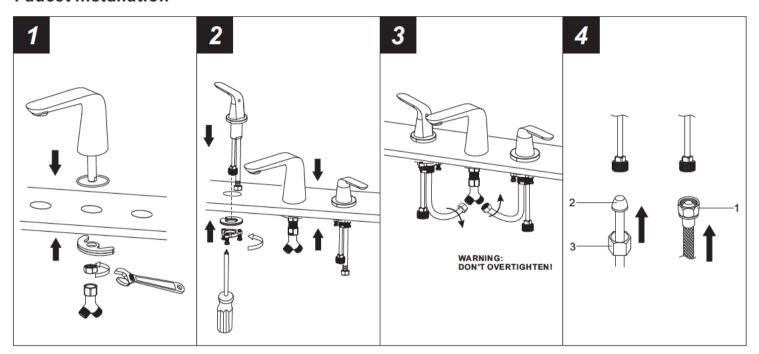

The tools might be applied to the following places:

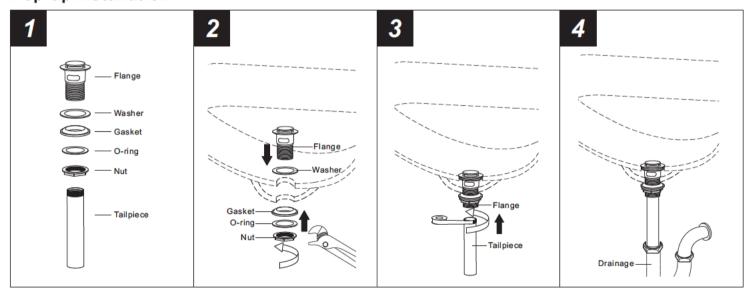

Step 2 Checking and testing

Faucet installation

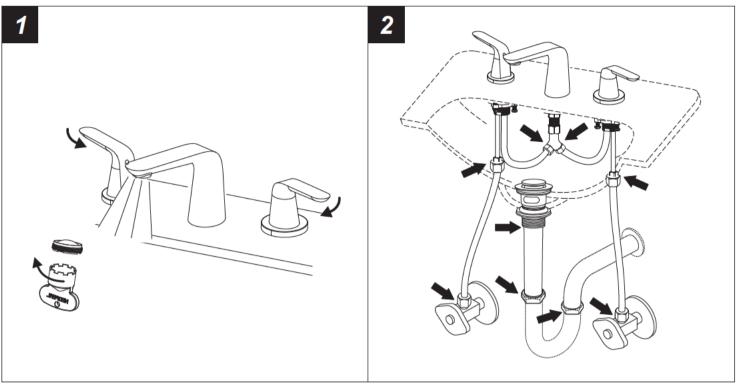

- 1.Position the body with o-ring in the installation surface as shown and secure it with gasket assembly and tighten the lock nut with adjustable wrench. Then assemble the connector assembly to the faucet and tighten it with adjustable wrench.
- 2.Position the handle in installation surface as shown and secure it with fixing kit and tighten the screw with screwdriver. Repeat the above steps for the other handle.
- Caution: please be caution with the position of hot and cold handles.
- 3. Assemble the flexible hose to the inlet first by hand, then fix the nut-end to the body and tighten it with wrench.
- 4. Make connections to water lines. Use 1 /2" IPS faucet connections #1, or use 3/8" O.D. ball nose risers #2 with coupling nuts #3. Use wrenches to tighten connections. Take care to not overtighten.

Pop-up installation

- 1. Remove the flange as shown in the above photo.
- 2. Put the flange and washer on the drain hole and assemble the gasket, o-ring and nut from underneath the basin. Tighten the nut with spanner. **DON'T OVERTIGHEN THE NUT.**
- 3. Apply telfon tape to the tailpiece and connect it to the flange.
- 4. Connect the tailpiece to drainage.

- 1.Remove the aerator by aerator wrench. Turn the faucet handle all the way on, turn on hot and cold water supply and flush water lines for one minute. Reinstall aerator by aerator wrench.
- 2. Check all connections at arrows for leaks, re-tighten it if necessary.

BUT DON'T OVERTIGHTEN

Step 3 Cleaning and care

Daily cleaning and care are required in order to keep the product shining and properly working.

- 1 Clean it with water and dry it with soft cloth.
- 2 Clean the product with gentle liquid or glass cleaner.
- 3 Don't use acid cleaner.
- 4 Don't clean with abrasive material, abrasive paper or knife.
