engineered by Sanijet®

## Deep Soaking Bath

Inspired by Japanese bathing rituals, the Mandarin is a deep-soaking spa bath perfect for properties with limited space. Custom developed for a leading five-star spa with a uniquely Asian perspective, the Mandarin offers striking modern, geometric lines, and its unique design is ideal for creating authentic spa bathing experiences.

- A Japanese-style soaking bath, the Mandarin's rectangular shape offers an extra-deep bathing well for complete immersion and is ideal for the single bather
- **Elite Hydromassage System** features four or six ultra-quiet jets
- For drop-in, undermount or three-wall alcove installation with an end-drain location
- Available with ChromaSoothe lighting, ergonomic grab bars and decorative drain with integral overflow

## The Pipeless™ Advantage

Every Purewater® Bath features the purity of Pipeless™ technology. With no pipes to trap bath residue and foster the growth of harmful bacteria commonly found in most ordinary piped and air-bubble systems, our patented Pipeless™ system ensures hospital-grade disinfection. Every time you slip into a Purewater® Bath it's pure, clean and sanitary – exactly the way bathing is supposed to be.

## Smooth, Quiet Operation

Whisper quiet and free of vibration, Purewater® Baths produce half the noise of conventional piped whirlpools and a fourth as much as air-bubble baths, ensuring your spa bath experience is peaceful and relaxing.

## True Spa-Quality Hydromassage

Envelop your body in a soothing cushion of relaxing hydromassage. Purewater® Baths combine simple water flow with advanced technology and complete hydromassage control to create a genuine, spa-quality bathing environment. Whether soaking or using active hydromassage, enjoy your favorite essential oils and thermal bath salts with confidence – any residue left behind can be completely cleaned after each use.

The Mandarin is exclusively available with the **Elite Hydromassage System** featuring multiple preprogrammed massages, designed by hydromassage experts to deliver maximum benefit at the touch of a button.

## Standard Features

- Pipeless™ spa baths can be thoroughly cleaned in approximately five minutes
- Purewater® Baths Pipeless™ hydromassage system disinfection protocol is independently certified by NSF International
- Intuitive electronic command panel with treatment timer automatically turns the spa bath off after 20 minutes of continuous use
- Requires no unsightly access panels and key components are accessible from inside the bath for easy maintenance
- Durable, easy-to-clean, lustrous acrylic construction
- Custom, pre-leveled ABS base for superior installation
- Extensive protection with the Purewater® Baths Limited Warranty
- Available in today's popular colors: White, Biscuit and Black
