SUGGESTED TOOLS AND MATERIALS:

INSTALLATION INSTRUCTLONS

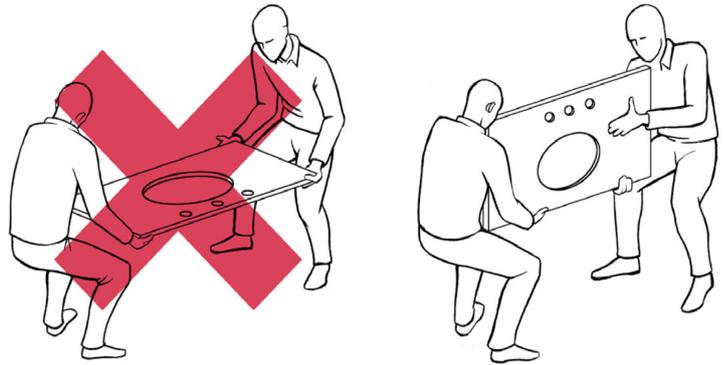

We recommend consulting a professional if you are unfamiliar with installing bathroom fixtures and plumbing. We accept no liability for any damage to the floor, plumbing, vanity cabinet, sink, counter top, or personal injury during installation.

1

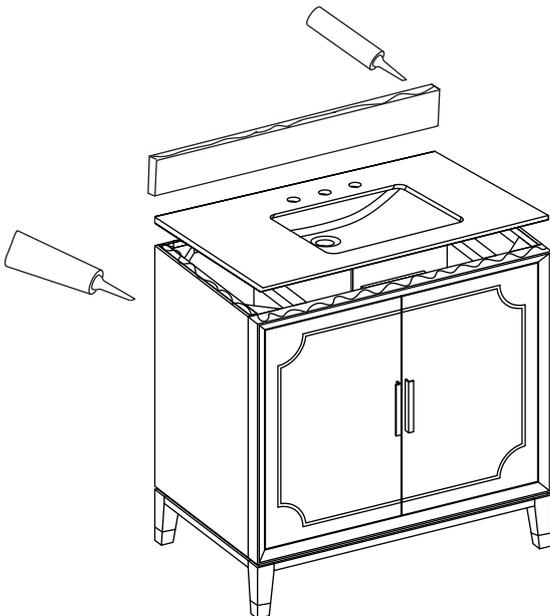

Remove vanity from box and examine vanity for any defects or damage. Carefully place vanity against wall.

2

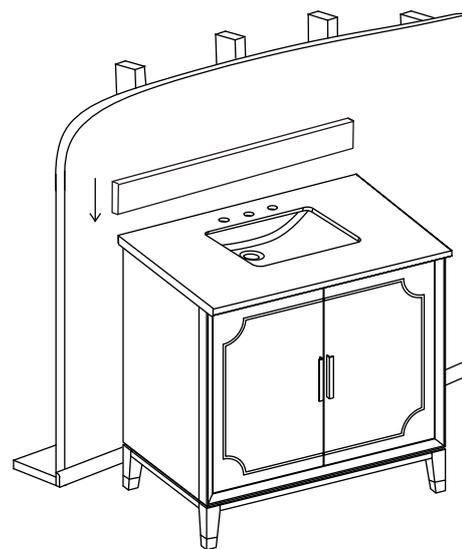

Always use a two man crew, a single person crew is much more likely to break or chip the stone top.

3

Apply bead of quality sealant evenly along the bottom of back splash and the top of the vanity.

4

Finally, place the bottom side of back splash with sealant onto the counter top and check alignment of back splash.
