

- Connect the ceiling wire to the electrical wire.
- Use the supplied screws A and B to mount the metal bar to the ceiling.
- If necessary, loosen the knobs E and F from the screws C and D to be able to mount the metal bar.
- The length of the cord may be adjusted by loosening the cord grip (G). Tighten the cord grip after the desired length has been determined.
- *For safety, the lamp should be installed by a qualified electrician.*
