

JONATHAN ADLER

TALITHA COLLECTION

Custom patterns are routed onto solid wood frames, then metal sheets are hand-applied by skilled artisans using traditional Indian techniques. Unique textures are hand stamped onto the surface and sealed with a clear lacquer topcoat to protect the finish.

CARE INSTRUCTIONS

- Avoid contact with hot items.
- Avoid exposure to direct sunlight.
- For indoor use only.
- Blot spills immediately. Do not allow water to collect on the surface.
- Clean using a soft, dry cloth.
- Avoid chemicals and detergents, which may damage the protective topcoat of the finish. Never use cleaners with alcohol or solvents on metals as they may damage the surface and finish. If your metal shows signs of significant wear, with a professional.
- Metal sheets are hand-applied and finished. Excessive pressure may cause denting. Take special care with corners and edges when moving.
- Wood is a natural material and responds to changes in temperature and humidity. Extreme fluctuations can cause wood furniture to crack and finishes or metal panels to buckle or lift.
