

A vertical chain of five brass links is shown against a white background. The links are oval-shaped and connected in a standard chain configuration. Two dimension lines are present: a horizontal line on the left side of the chain, and a vertical line on the right side. The horizontal line is positioned between the second and third links from the top, and the vertical line is positioned between the second and third links from the bottom. The text '0.51"' is placed to the left of the horizontal line, and '0.71"' is placed to the right of the vertical line.
