ASSEMBLY INSTRUCTIONS/GUIDE FOR 818/809/807 BEDS

Important Notes Before Assembly:

1. Remove all wrappings before starting to assemble.
2. To avoid scratches, make sure to place all parts in a clean and level surface.
3. Make sure that all parts are accounted for.
4. It is recommended that at least 2 persons will do the assembly to avoid unnecessary breakage or misalignment of parts.

Assembly Guide:

1. With the Headboard standing perpendicularly, insert the male connector in the left hand side rail to the female connector of the headboard then press the side rails downward to lock. The same procedure for the right hand side rail.
2. With the Headboard and Side rails in place, attach the footboard by inserting the connectors of the side rails to the female connector of the footboard and press the side rails downward to lock.
3. Install the slats to the side rails and press downward to secure. However, it is recommended that the slat center support which has the pre-installed hanger bolt be installed first to the matching slats
