CR59 PRINCESS

It's little, and it's lovely and you probably remember it in your sister's bedroom or at your mother's desk. The original desk phone was redesigned with this smart new look. The Princess®, introduced in 1959, was compact and attractive. Featured in a variety of colors, including pastels, this unit had a smaller footprint to fit in those not-so-big spaces. With it's rounded edges, sleek lines and fashionable stylings it quickly became a favorite.
