Step 11.

Insert the handle screws (part 1) into the holes from the back side of the drawer fronts. add the knobs (part 4). use a phillips head screwdriver to tighten the bolt by turning clockwise. do not turn the handle itself to tighten. you will scratch the drawer front if you do. align the drawer glides with those in the cabinet and press forward. open and close the drawer to get a smooth glide.

Furniture Safety Bracket Tip Resistant

- Designed to help prevent furniture tipover.
- Detachable strap allows for easy moving of furniture for cleaning .
- Also helps prevent furniture tipover during minor tremor.

Installation:

1. Locate a wall stud behind your furniture. Position a bracket on the stud approximately 1" below the top of the furniture. Mark and drill pilot hole into the center of the stud with a 3/32" drill bit. Attach a bracket to the stud with the long screws provided.

2. On the back of the furniture, a bracket will need to be attached to the furniture frame at the top. To do this, temporarily move the furniture into its final position and mark the location of the wall bracket on the furniture frame. Move the furniture away from the wall and place a bracket on the mark. Mark and drill holes for screws with a 3/32" drill bit. Attach the bracket to the furniture with the short screws provided.

3. Move the furniture into its final position, taking care to line up the wall bracket with the furniture bracket. Thread a strap through the bracket as shown in the illustration. Tighten strap until snug. Do not over tighten.

Important:

Check to be sure the wall bracket is firmly screwed into wall stud, the furniture bracket is firmly attached to the frame, and the strap is snug.

Caution:

This product is not to be a substitute for proper parental supervision. Manufacturer assumes no liability for improper installation or excessive loads placed on screws brackets or straps.
