

THE BATTERY

12V 100Ah

The battery is a sealed lead acid battery with a capacity of 100Ah. It is designed for use in a range of applications, including marine, industrial and agricultural. The battery is constructed from high quality materials and is designed to provide a long service life.

The battery is designed to provide a long service life. It is constructed from high quality materials and is designed to provide a long service life. The battery is designed to provide a long service life. It is constructed from high quality materials and is designed to provide a long service life.

The battery is designed to provide a long service life. It is constructed from high quality materials and is designed to provide a long service life.

Technical specifications		
Parameter	Value	Unit
Nominal voltage	12	V
Nominal capacity	100	Ah
Max. charge current	10	A
Max. discharge current	100	A
Self-discharge rate	5	%/month
Operating temperature range	-20 to 50	°C
Weight	25	kg
Dimensions (L x W x H)	330 x 175 x 225	mm
