CCT SELECTABLE LED UNDER CABINET

NICOR LED Under Cabinet lighting is an attractive upgrade that can quickly increase the value and functionality of your work space. The UCB1 offers a CCT Selectable design which allows for easy adjustment to 2700K, 3000K, 3500K, 4000K or 5000K. The UCB1 presents a clean, professional look allowing you to use an existing wall switch or dimmer to easily control your lights. Offering uniform illumination, warm color and low operating temperatures, this under cabinet light can be used in residential, retail, and commercial applications. Whether in a kitchen, under a shelf or in a defined work space, these 1-inch low profile fixtures are perfect for task or accent lighting and illuminating products, apparel, or collectibles.
