Hardware				Tools	
NO.		Draw	QTY		
A	White rubber plug(Ø10mm)		2		
B	Screws(Ø6 x 75mm)		2		
C	Stainless steel cover		2		
D	Metal feet		4		
E	Metal foot screw(M4x16mm)		8		

Wall blocking is required for all installation

The suggested heights without the sink are 30-5/8" for Blossom Resin Basin, or 32-5/8" for Blossom Ceramic Basin.

Depending on the sinks selected, the total height will vary from 33-1/2"(850mm) to 35-1/4"(895mm). If an alternate height desired, adjust the rough-in and backing material heights using the dimensions provided.

STEP 1

- Place the bathroom cabinet on the floor higher than 250mm.
- Use metal feet screw E to align metal feet D with the hole.
- On the other side, also use metal feet screw E to align the metal feet D with the hole.
- The adjusting screw at the bottom of the metal foot can be raised 0-9/16"(0-15mm).

STEP 2

- Mark the pre-drilled holes with a pencil or marker after positioning the vanity.
- Drill the holes with suitable drill-bits base on different condition of the wall.

STEP 3

- White rubber plug for brick wall or concrete wall.

STEP 4

- Fix the cabinet to the wall with screw B and cover it with a stainless steel lid C.

STEP 5

- Install the basin with silicone.

STEP 6

- Installation complete.
