TEXTILES IMPRIMÉS

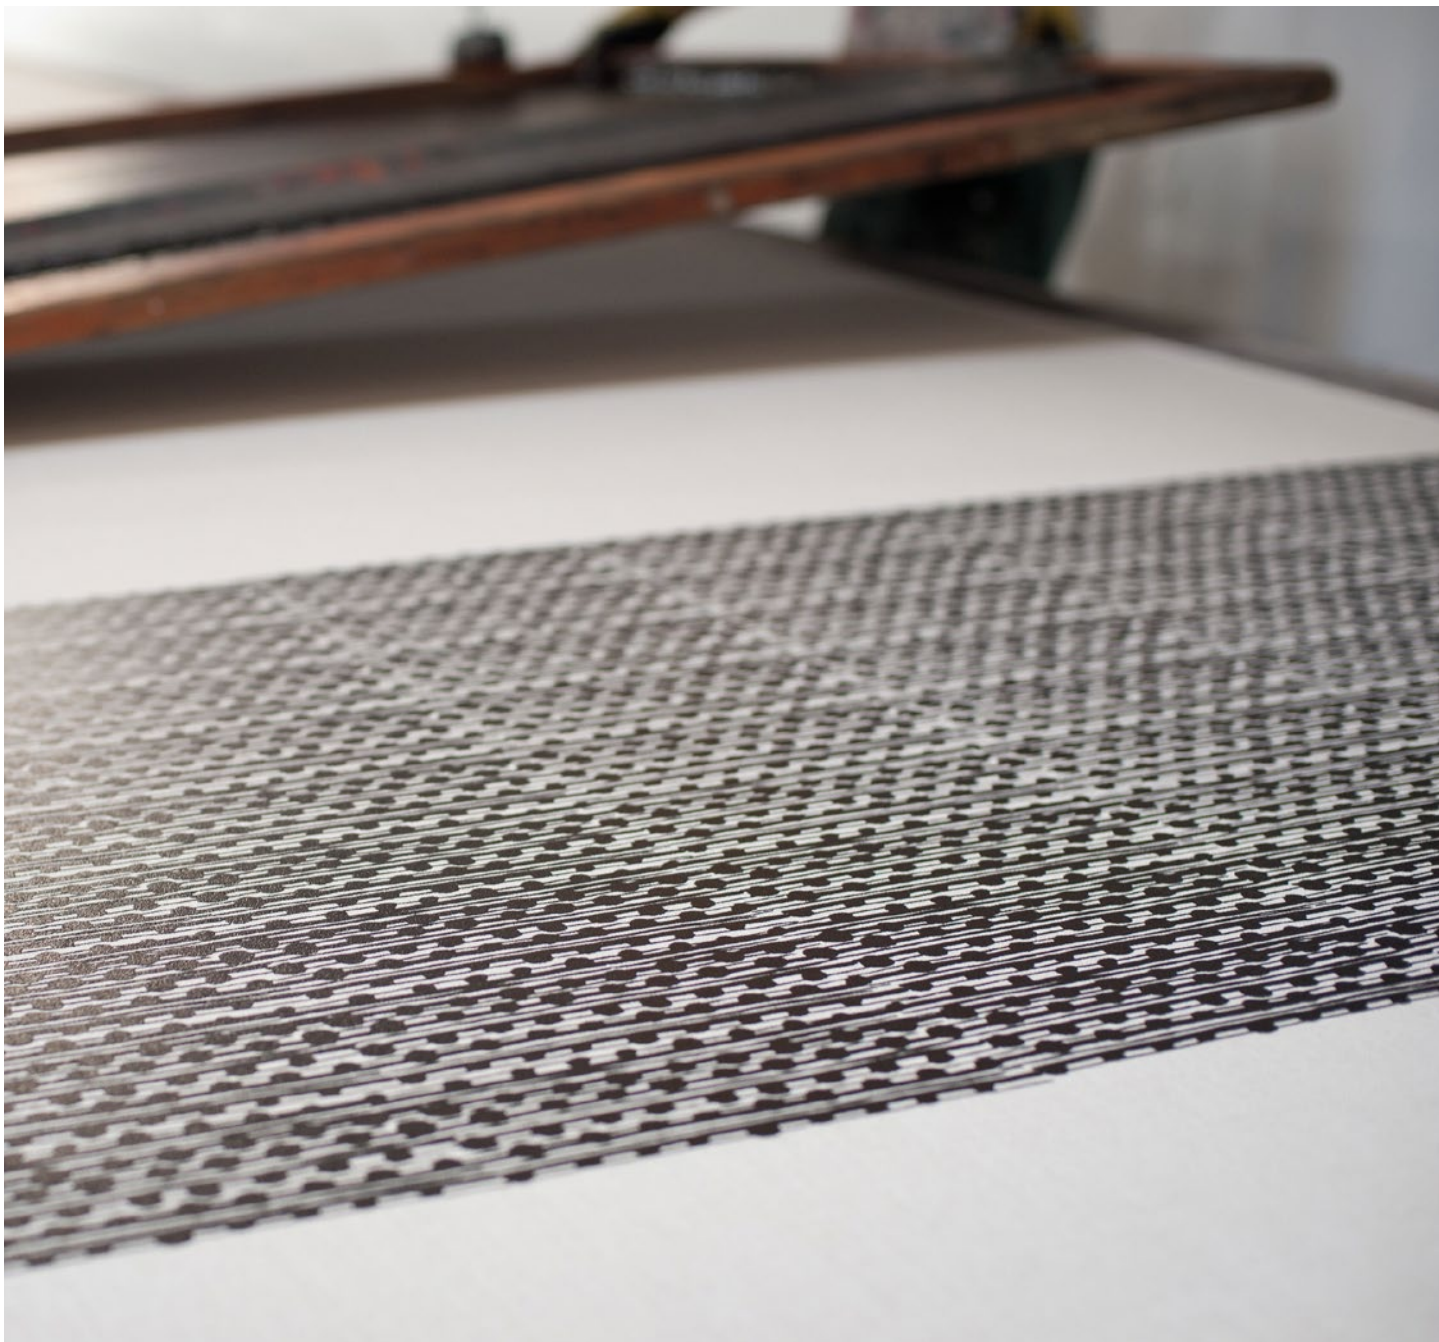

OUR STORY

From Caroline's original paintings to the heritage linen and cotton fabrics we hand print on - our collection celebrates the artisanal through and through. We are proud to be a part of the re-emergence of Craft in American design today. Our fabrics are available in top interior design showrooms globally and online at **carolinececiltextiles.com**.

HAND PAINTED

All of our designs begin as an original Caroline Cecil India Ink painting. Often working with her grandmother's brushes, each motif is first painted in black and white to ensure a balanced composition. From there, our designs are put into repeat composition and colorways are explored. All of our textiles are infused with creativity, beauty, originality, and integrity.

HAND PRINTED

Hand printed in California onto the finest Belgian linens and other premium ground cloths, we take pride in contributing a modern look to the community of micro-batch textiles. We celebrate the small imperfections and hand feel that is the result of printing our designs by hand. We promise, you will see and feel the difference.
