## Instructions

### *Fountain Installation and Care*

# Parts List

## Parts List:

- A: Copper Base Pan
- B: Copper Frame
- C: Pump
- D: Copper rock trays
- E: River Rocks

# Fountain Assembly

1. Remove parts from box and lay them out for ease of reference. If any parts are missing please contact customer service.
2. Set pan "A" down on flat level surface.

3. Install pump "C" into Copper Frame "B"

4. Set frame "B" in center of pan "A" and fold down copper tabs to secure frame to pan.

5. Fill with water to  $\frac{1}{4}$ " below top of pan.  
Do not over fill.

6. Plug in fountain and use a wet sponge on the slate to insure water flows evenly.
7. Place rock trays "D" in pan and cover with river rocks.
