

JONATHAN ADLER

REFORM COLLECTION

Inspired by the Brutalist architecture of modernist temples and churches from Le Corbusier's Ronchamp to Miami's Temple Israel to the Cathedral of Brasília. Each Reform prototype starts its journey in our Soho studio, where Jonathan and his team design and hand-sculpt the original model in clay before casting in solid brass.

CARE INSTRUCTIONS

- Avoid contact with hot items.
- If desired, use a microfiber cloth to buff out fingerprints.
- Never use cleaners with alcohol or solvents on metals as they may damage the surface and finish.
- Over time, the polished brass will develop a rich natural patina. If you have no patience for patina, use a brass polish, but be careful to avoid non-brass areas with these products.
- **Caution:** For stability with our Reform Cocktail Table, please use the included glass bumpers and center the glass top on the base. To prevent tipping and for maximum safety, distribute weight evenly. Do not lean on or rest feet on the glass.
