

## ● INSTRUCTION MANUAL FOR KTH-7117

1. Connect the upper tube "4" with the connector of lampshade "3", and screw them tightly.
2. Connect the middle tube "5" with the upper tube "4", and screw them tightly.
3. Connect the lower tube "6" with the middle tube "5", and screw them tightly.
4. Pull the power cord "8" out of the base "7" until the lower tube "6" can be connected with the base "7" nicely.
5. Fix the netting "2" on the lampshade "3".
6. Stick the Magnet of the silk cloth "1" on the "U" metal bracket of the netting "2"

## ● INSTRUCTION FOR REPLACING BULB

Place the filter glass "B" onto the bulb "C" and lock together with clip "A". Insert bulb into lamp socket "D" and twist to lock into place.

## ● REMARKS: WHILE ASSEMBLING

1. Make sure that the components are aligned and straight before tightening. Please be patient while threading the components together. If they are not aligned and straight, you may damage the wires.
2. Make sure that every joint is securely tightened.

## ● IMPORTANT SAFETY FEATURES:

1. Before replacing the bulb, please make sure the lamp is turned off and unplugged, and that the unit has cooled down.
2. Do not handle the bulbs with bare hands at any time, oil from your skin will shorten the life of the bulbs and cause weakness to the integrity of the glass, use a soft cloth to cover the bulb if you need to handle the bulb.
3. Keep lamp away from flammable material. Do not place the lamp next to combustible items such as drapes, clothing, etc.
