Assembly Instruction

Model #AL13

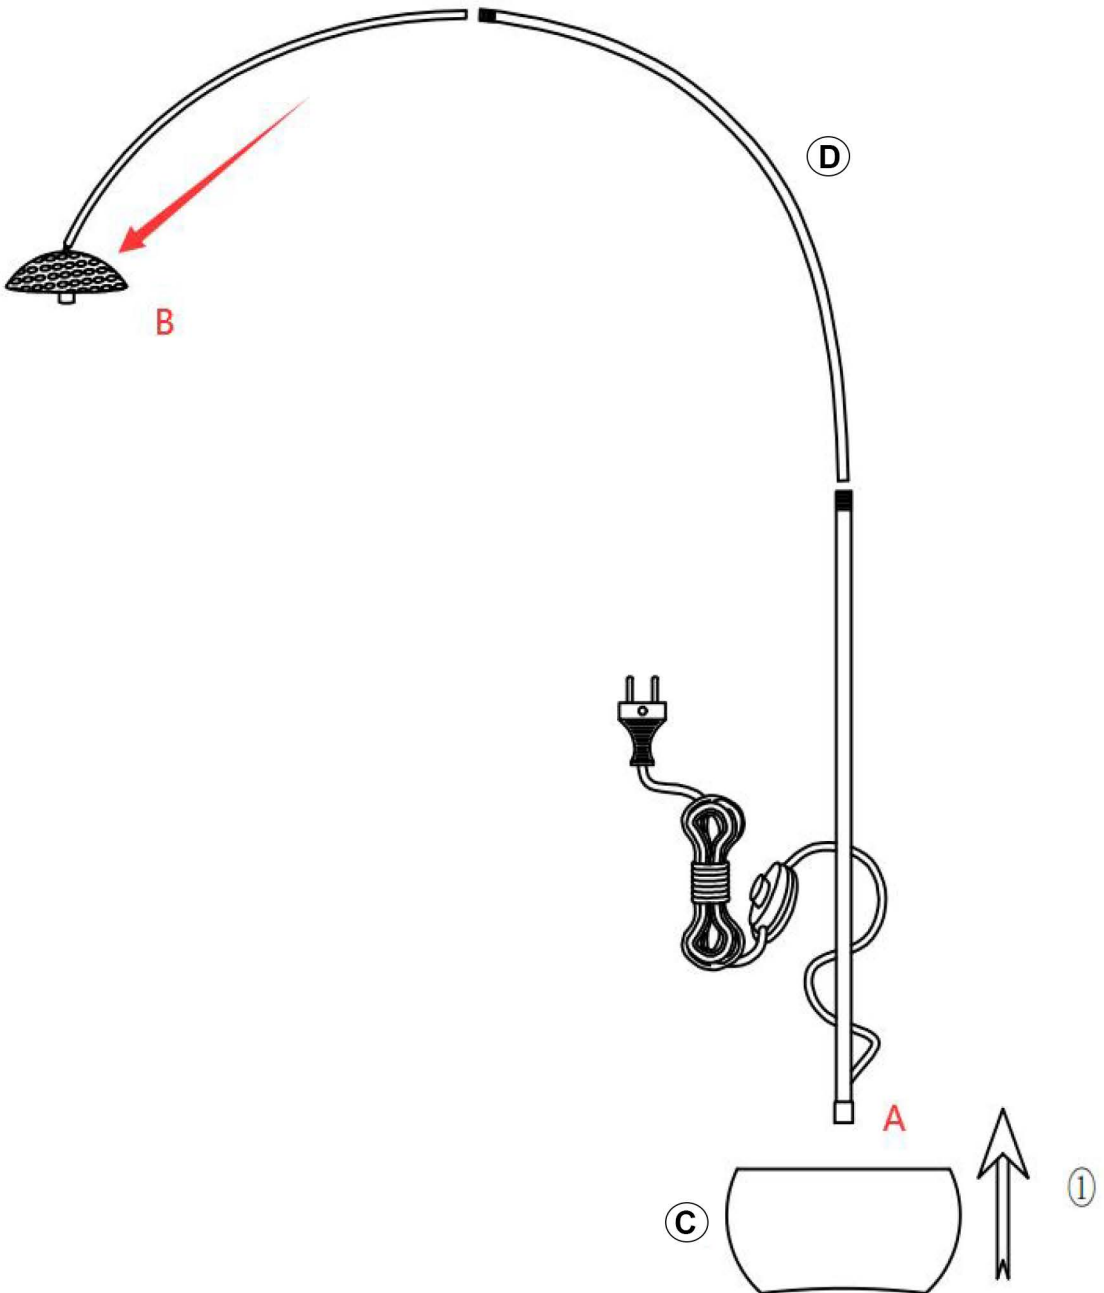

What's Included

- Ⓒ Lamp Shade 1 PCS
- Ⓓ Lamp Pole 1 PCS
- Ⓔ Lamp Base 1 PCS

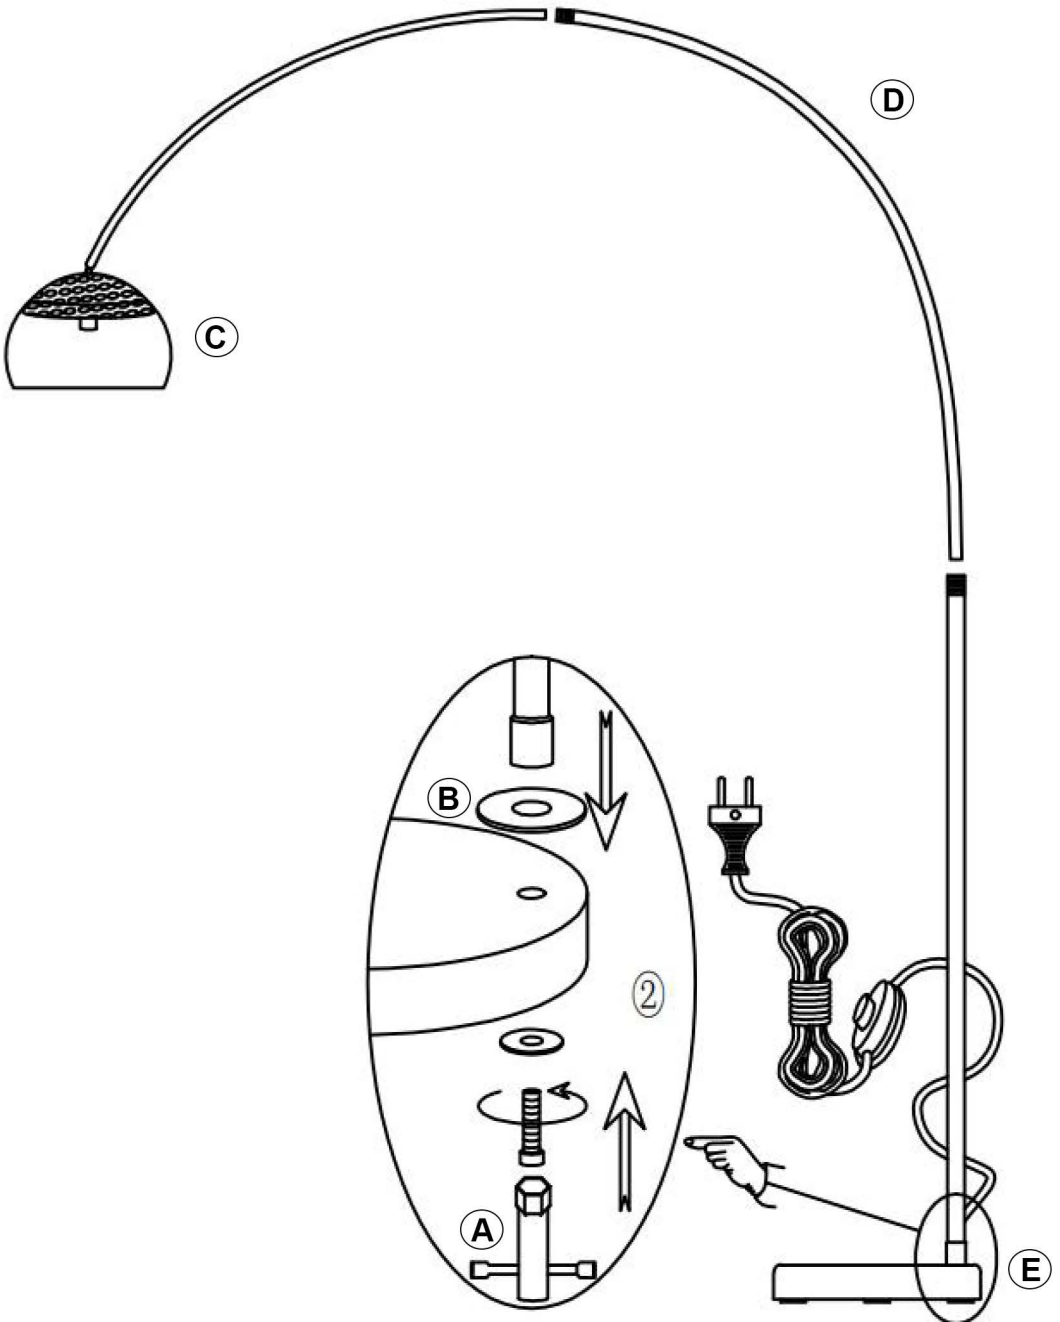

Step 1

- ① Move the lamp shade (C) through the bottom of the lamp pole (A) to the other end of the lamp pole (B)

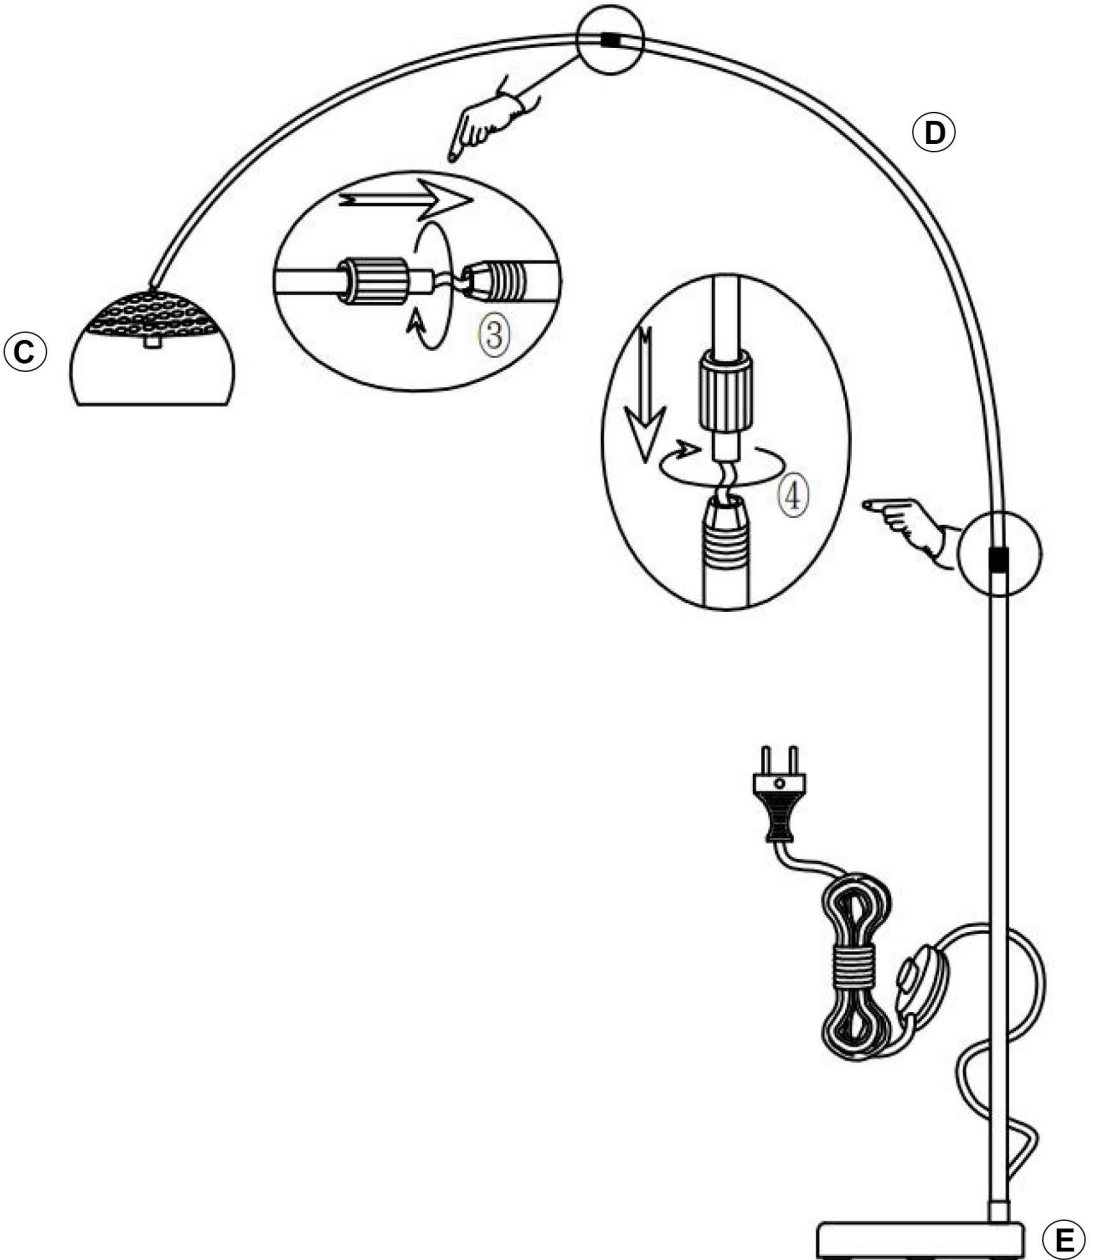

Step 2

- ② Fix the lamp pole (D) to the lamp base (E) with the large screws and gasket (A/B)

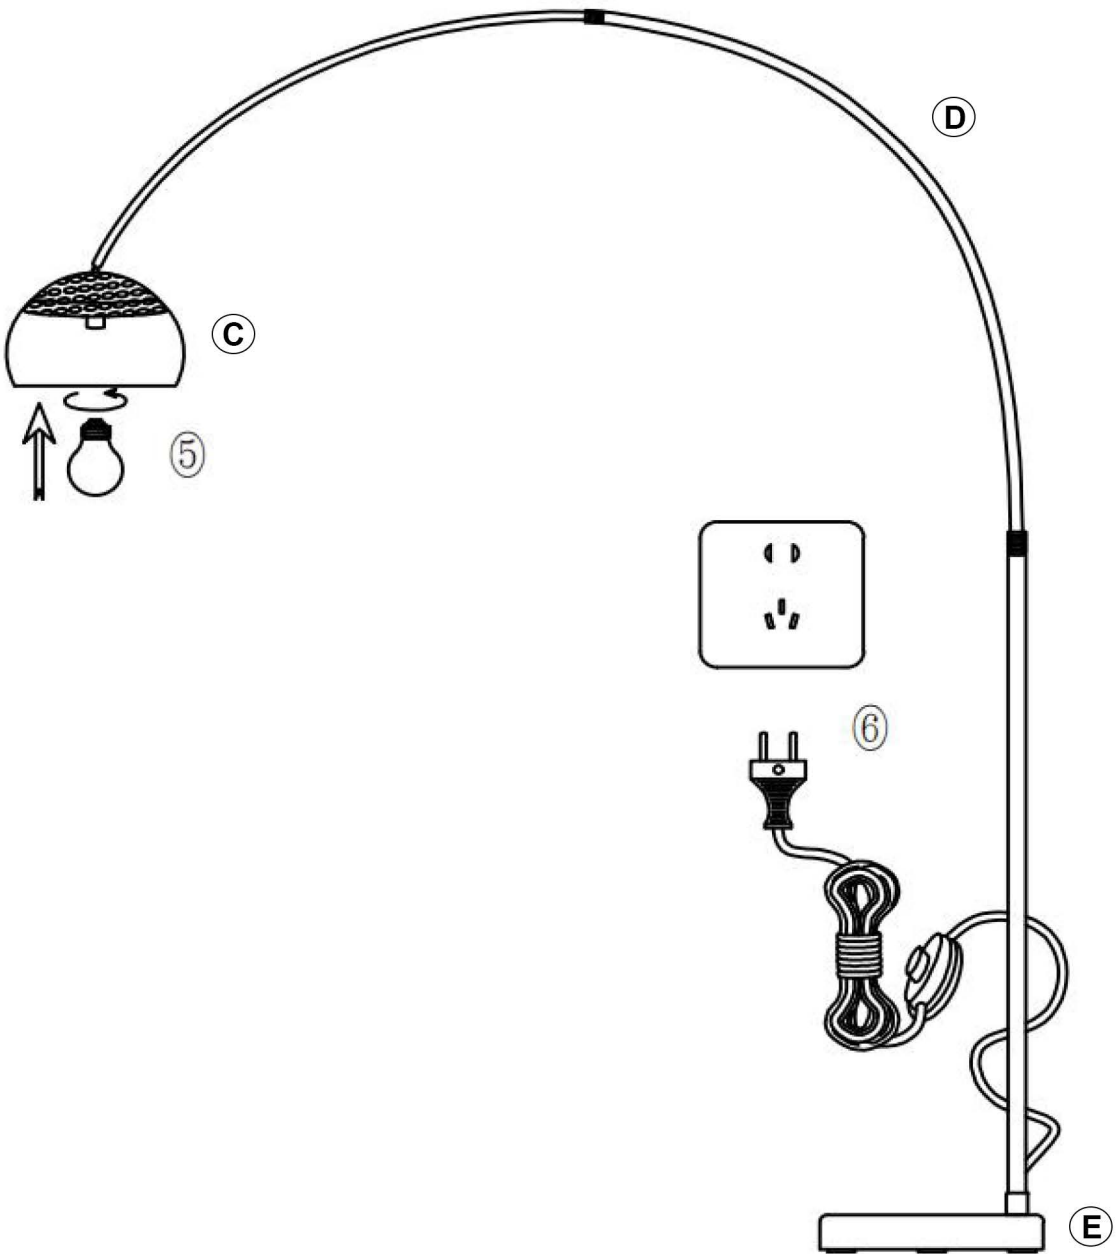

Step 3

③ The wires have been threaded in advance, pull the wires from the bottom so wires are straight, and then fix the two parts of the pole together, with screws (See figures 3 and 4 below) Please note the screws are already on the poles

Step 4

④ Install the light bulb (the maximum wattage of the light bulb is 40W) You can buy light bulbs according to the brightness and color temperature you want, and finally connect the plug
