

Classic Large Mantel

DA8690

EC0205

EC1766

You don't need a bunch of tools to assemble this item, in fact you don't need any! What a relief.

You can assemble this item alone, but it will be way easier and much more fun if you do it with a friend.

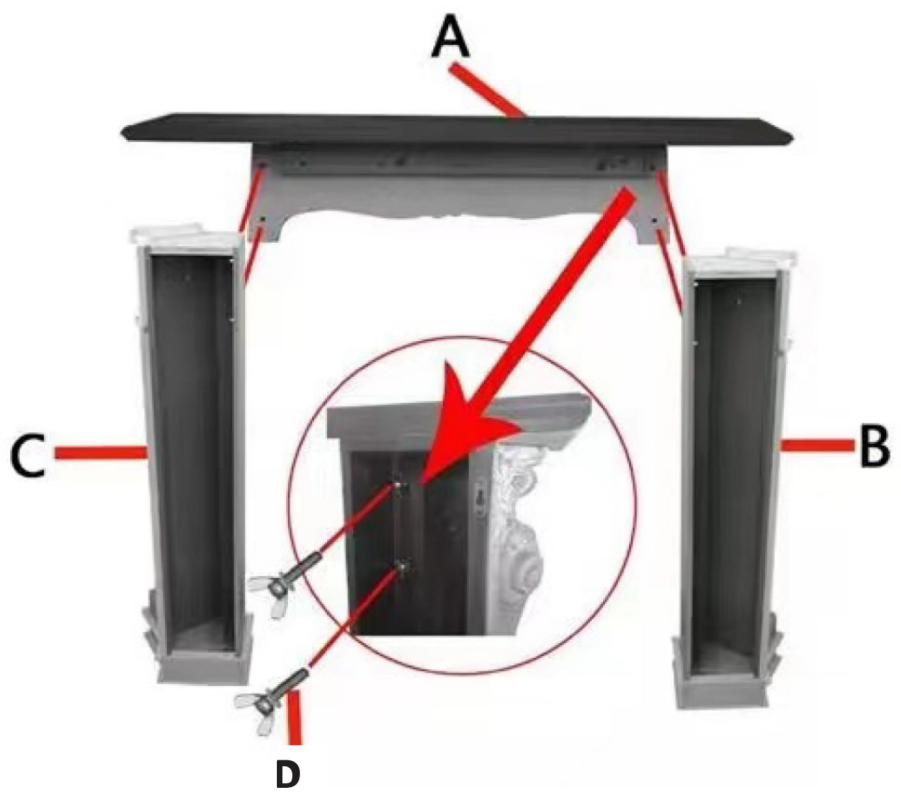

Component List

Item	Image	Quantity	Item	Image	Quantity
A	 Mantel Top	1	B	 Left Leg	1
C	 Right Leg	1	D	 Wing Bolt with Washer	8

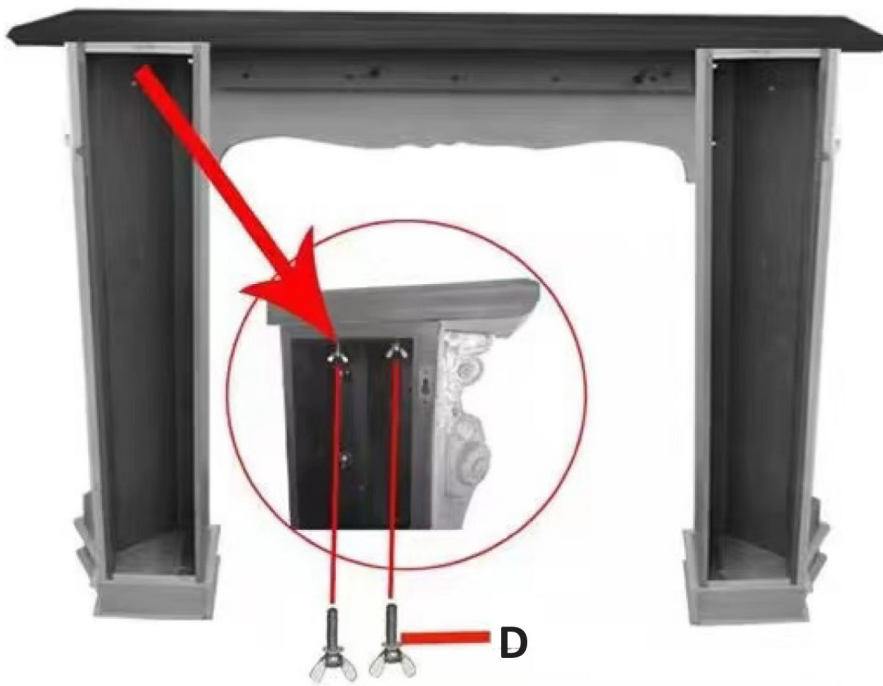

Step 1

Start by standing up each leg (C & B). Attach the mantel top (A) using the wing bolts (D) via the holes in the front. Don't tighten the bolts all the way, this will make it easier to align the top bolts.

Step 2

Then secure the mantel top (A) to the legs (C & B) using the remaining wing bolts (D) via the holes in the top. At this point you can tighten the bolts fully.

Step 3

That's it. You're done!* You've successfully constructed a very elegant mantel.

* Safety Note: Of course we always recommend fastening items such as these securely to the wall for safety. This decorative piece is not advise to be near open flame. Consumers should consult relevant local regulations for use near a fireplace.
