The Pro-V Chimney models extend the selection of our Pro-V series hoods. These wall mount and barbecue range hoods feature full variable speed fan controls, heat lamp sockets, baffle filters, and energy efficient LED lights. Available with powerful local and in-line blowers, the Pro-V Chimney models are crafted to go head to head with our top competitors in side by side comparison for value, application, performance and noise levels. The Pro-V WC offers power and versatility at a great price.
