- Note the arrow direction on each panel when assembling the case.

Our easy-to-assemble furniture is easy to put together. Just follow these step-by-step instruction carefully, and you will have furniture that is both attractive and functional.

Here's How:

READ THE INSTRUCTIONS. Before you begin assembly, read the instructions carefully. We suggest starting with the subassembly of the parts before beginning the main assembly.

IDENTIFY THE PIECES AND HARDWARE. First, lay all the parts and hardware out on the floor surface as you see them in the Parts List. This will help you locate the right item when you need it. If any parts are missing or defective please contact our customer service.

NOTE: SOME PARTS MAY NOT BE IDENTIFIED WITH LABELS.

If you have any questions about your new furniture, just call 1-800-668-0490 between 8:00am-5:00pm, Monday through Friday (Eastern Time). Holiday weekends will not be staffed. Have the part number handy when you call.

If you feel the item is defective beyond resolution with part replacements, please return this product with your receipt to the place of purchase. Photos and additional information may be requested to validate claim.

Furniture Care

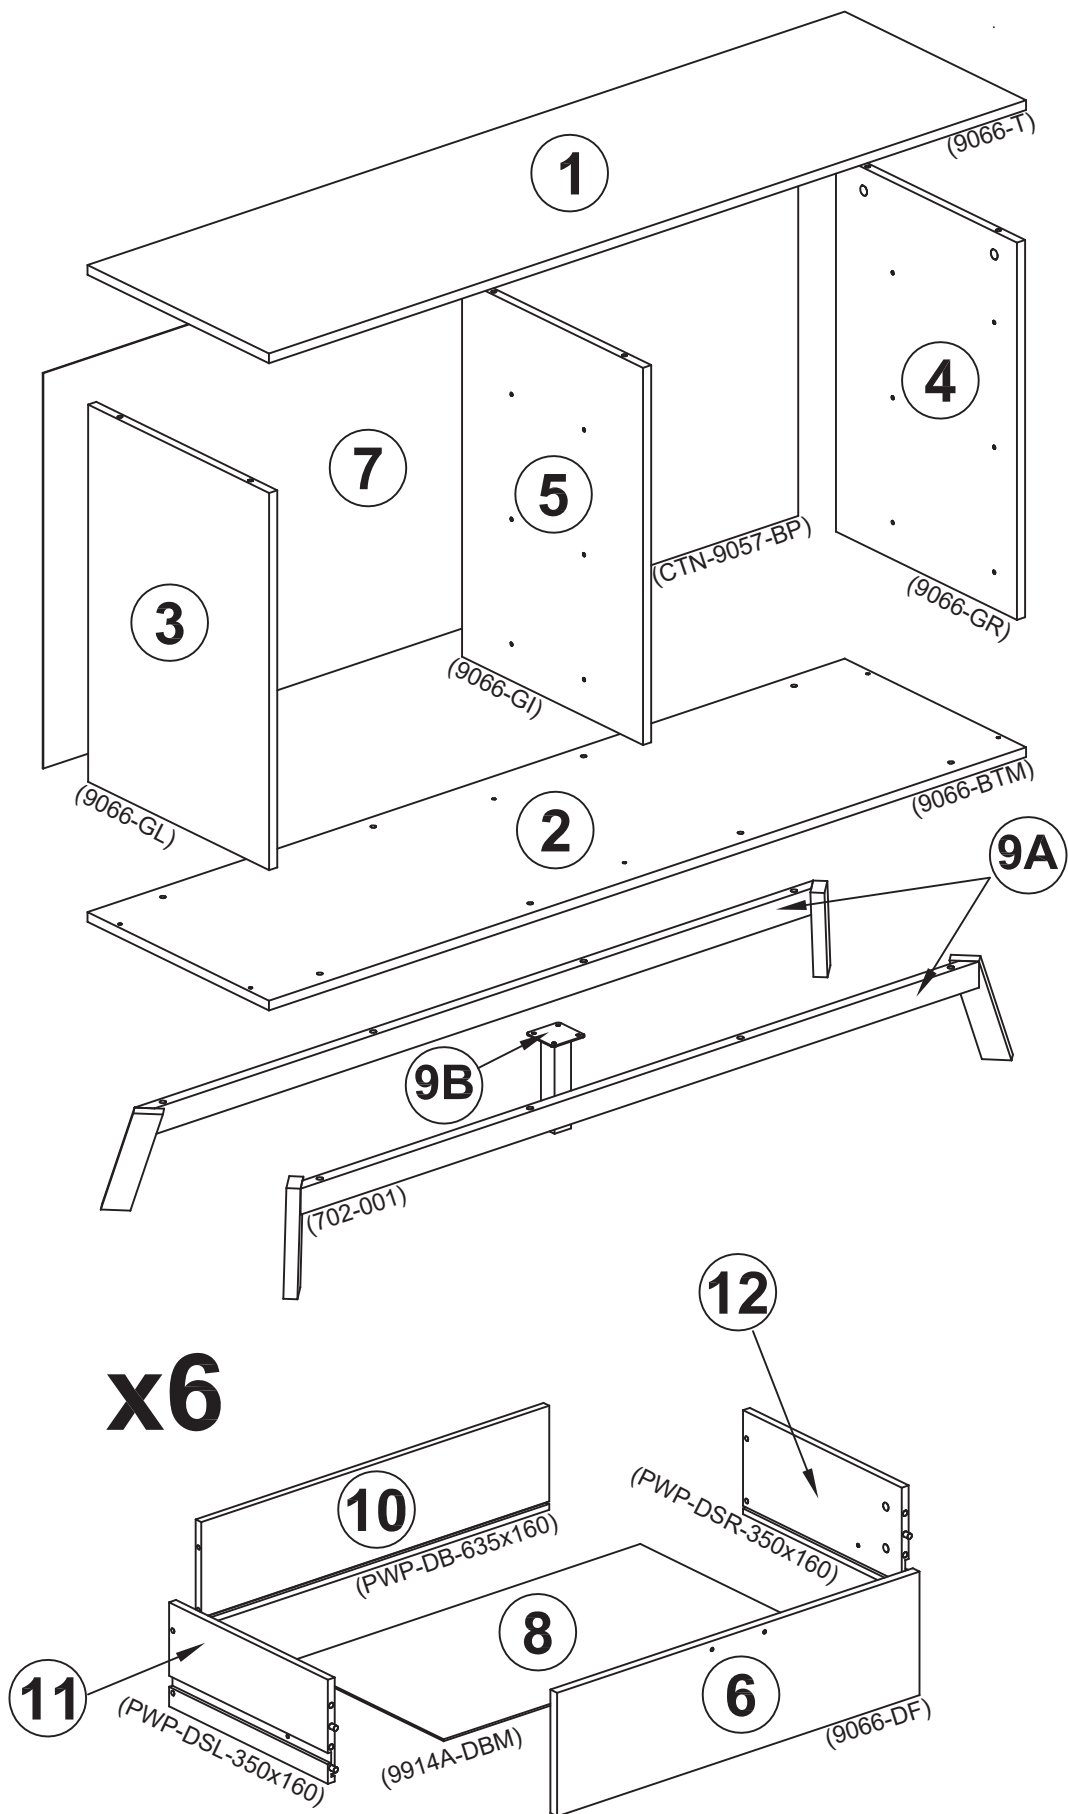

To remove part labels, gently rub a soft cloth moistened with a mild household cleanser (Windex or Pledge) over the part label. Then lift a corner of the label and pull firmly but smoothly until the label comes off. Dust as needed with a clean, lint-free absorbent cloth. Spray furniture polish may be used when cleaning. Scratches and nicks can be touched up with a furniture touch-up stick, shoe polish, or a crayon.

Trouble Shooting Problems

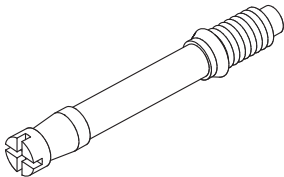

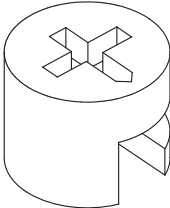

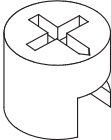

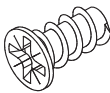

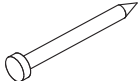

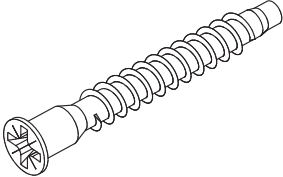

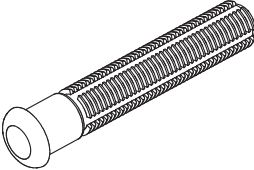

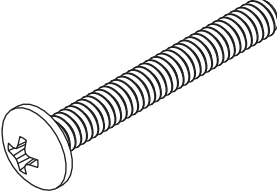

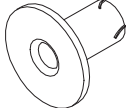

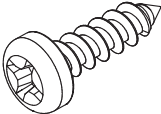

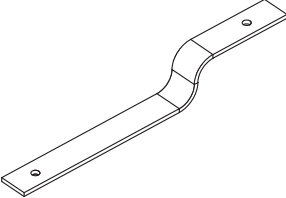

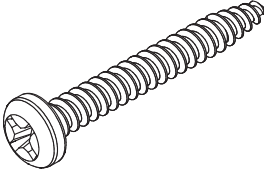

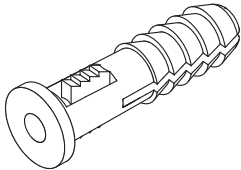

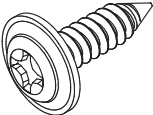

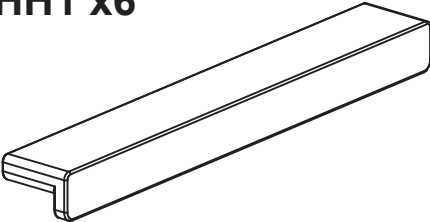

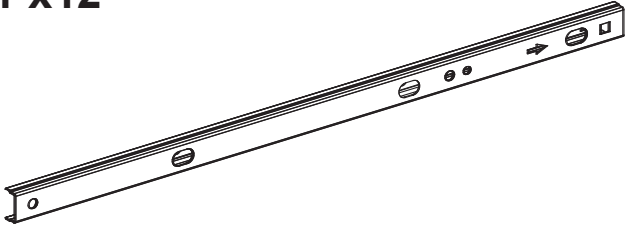

Drawers appear to be slightly crooked in the case:

- Make sure the back is nailed on squarely
- Make sure your floor is level
