

Curve' Decorative Mirrors

Mounting INSTRUCTIONS

1. Determine where you want to hang the mirror on the wall.
2. Measure the distance between the two D-Ring hooks that are already mounted to the back of your mirror for either Vertical or Horizontal installation. (your choice)
3. Take two (2) screws and place them into the wall the same distance apart as the D-Ring hooks and leave them about 3/8" out of the wall.

NOTE: Do not put wire or twine across the back. You must mount both sides as indicated above.

4. Pick up the mirror and place the D-Ring hooks over the screws you mounted on the wall. Make sure they are properly secure on both sides.

Cleaning Instructions

1. Do not use any Ammonia based mirror cleaner
2. Never spray cleaner directly on the mirror. Always spray onto paper towel or cloth.
